**Part I: General comments**

In the space below, please provide any general comments, such as about the clarity with which the new recommendations were incorporated (30 words or less).

*Comment:*

<p>We agree with rearrangement of introduction into chapter 14 and also with further suggested changes, including dropping the existing annex about treatment of costs of ownership transfer.</p>

**Part II: Comments on specific draft paragraphs or passages**

In your review of draft chapter 10, you may wish to devote particular attention to the passages listed below. There is space after each issue for any comment you wish to make.

1. Sections B covers produced assets. Much new material has been included originating in the Canberra II Group. Are the additions clear, especially to those not involved in the Canberra II Group work?

*Comment:*

Less common cases would likely ask for more detailed description. E.g., this could refer to the notion of externality in paragraph 10.99.

2. Section D1 covers natural resources. Every attempt has been made to harmonise with the asset categories in SEEA and some detail is left optional within SNA though included in SEEA. Are you satisfied with the balance? If not, what would you propose?

*Comment:*

We do not consider as useful to duplicate a detailed segmentation of natural resources from SEEA also in SNA in countries where SEEA are compiled.

3. Section D2 covers contracts, leases and licenses. A fuller exposition of these will appear in chapter 17 on Cross-cutting and Other Special Issues. Although it may be difficult to comment without having chapter 17 in hand, are there points missing from this summary that you think should be necessary even in a summary?

*Comment:*

It does not seem that there are points missing in section D2 in summary about contracts, leases and licenses. Nevertheless we expect the possibility to consider it again when chapter 17 is available.

4. It is proposed to omit the annex on costs of ownership transfer. Is there anything missing on this subject from the chapter if the annex is dropped?

*Comment:*

We do not object against omitting the annex on costs of ownership transfer.
