Part I: General comments

In the space below, please provide any general comments, such as about the clarity with which the new recommendations were incorporated (30 words or less).

Comment:

The statements in the text that refer to particular entries in table 12.1 were not updated to match the changes made to table 12.1. These statements in the text are the same as in SNA 93, but the table in the new version is different. [e.g., see para: 12.14, 12.19,12.24,12.26]. Also, the text often notes that entries are on the left-side, when in fact the entries are not on the right-side for the new table 12.1.

The revised text seems to want to replace the terms “economic appearance” and “economic disappearance” with entry and exit, given the changes made to the table and the text of the introduction. However, the terms, economic appearance and disappearance, are still found later in the text. And, given the change in the order of asset types discussed and the introduction, the terms economic appearances and disappearances are introduced with less adequate explanation than in the prior SNA 93 version.

Part II: Comments on specific draft paragraphs or passages

In your review of draft chapter 12, you may wish to devote particular attention to the passages listed below. There is space after each issue for any comment you wish to make.

1. Sections B: As compared with the hierarchy of entries in the other changes in the volume of assets account in the 1993 SNA, the proposed list for the update has been

restructured with the intention of making it easier to associate entries in the other changes in the volume of assets accounts with the entries in the other accumulation account chapters including the balance sheet.. Do you find this successful or are there other changes you would suggest?

2. Does it make sense to have information on the other changes in financial assets moved to this chapter instead of, as previously, having them in chapter 11? In the 1993 SNA, the information on the other changes in financial assets was covered in chapter 11, The Financial Account. Do you see any problems with moving this information to this chapter?

3. It is proposed to make the existing annex on the calculation of holding gains and losses an electronic annex, available to all users of the manual but not included in the printed version. Do you have comments on this proposal?
