18.44	Perhaps it could be explained in more detail what should be included in the “national sector” apart from interest on the public debt payable by central government (including FISIM component?). Does the last sentence mean that allocable transactions will be allocated among “establishments” in regions and not-allocable ones should remain in “national sector”? Is the word “sector” appropriate for regional aspect?

2. Are the examples of possible tables in section F helpful and sufficient?
