Part I: General comments

In the space below, please provide any general comments, such as about the clarity with which the new recommendations were incorporated (30 words or less).

Comment:

<p>We broadly agree in principle with treating the cost of central ancillary activities as the services (and exceptionally goods) produced by the unit that carried out the ancillary activities.</p> <p>However, in accepting the recommendations, there is a problem of the services being overestimated compared to real economy of Korea and there are difficulties in acquiring the requisite data from the sources of business accounting in Korea</p>
