Keeping Pace with Development: Challenges for National Statistics Systems

**UN Statistics Commission
New York**

Statistician-General South Africa

Pali Lehohla

Thursday, 3 March 2005

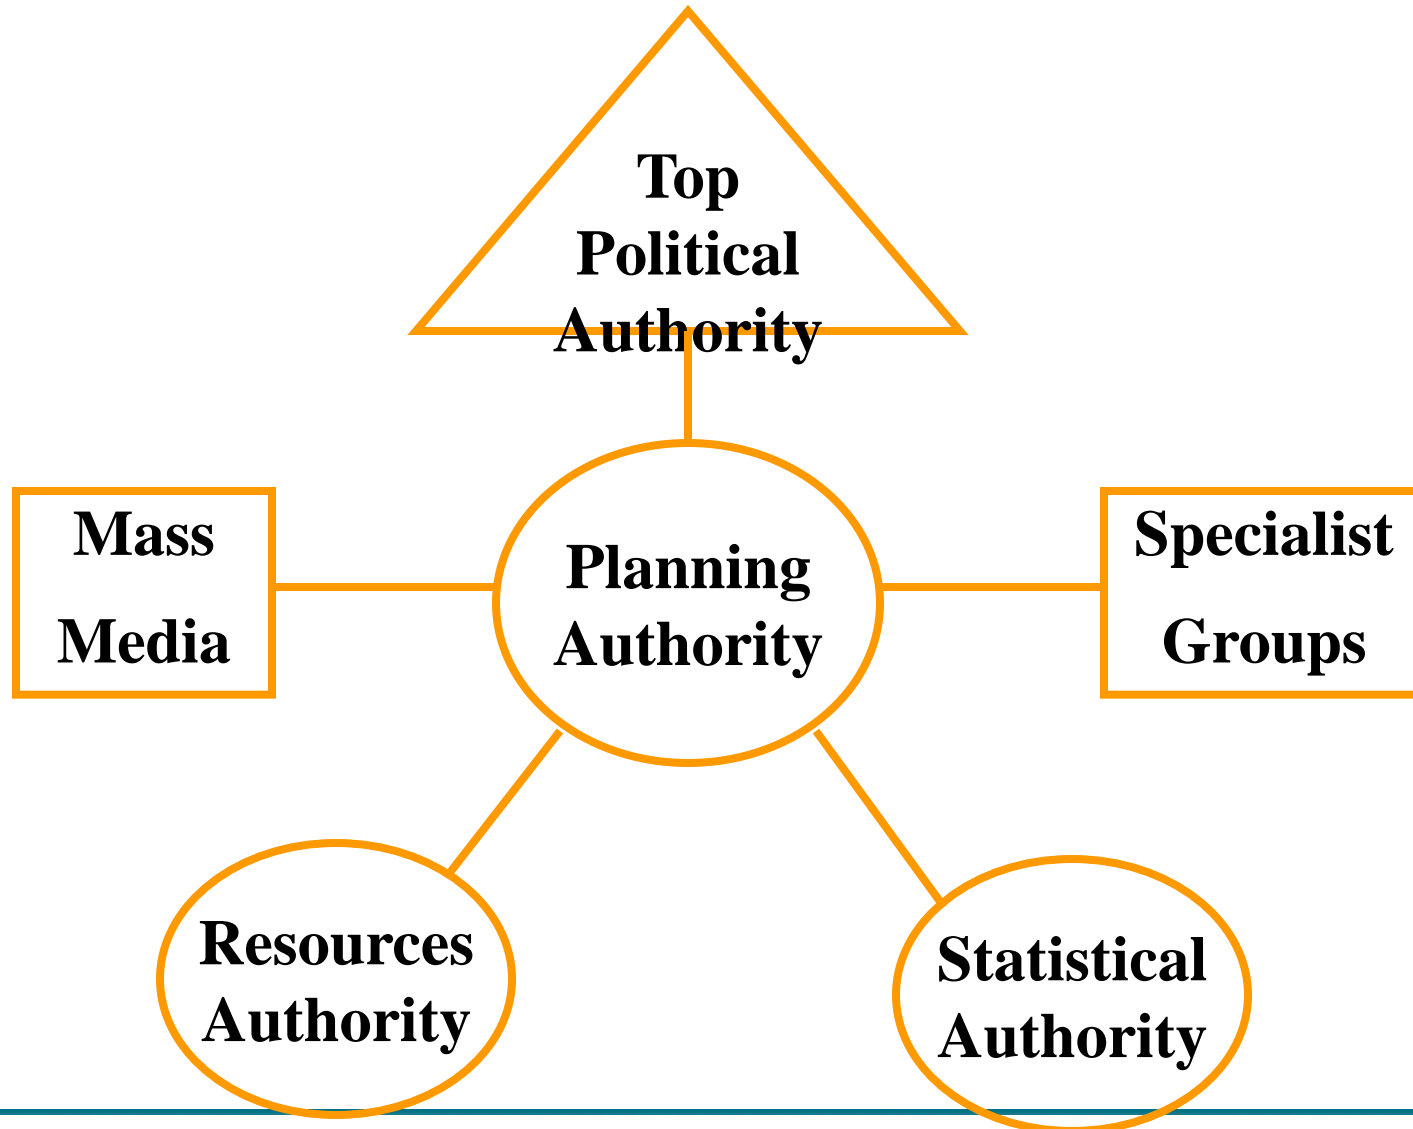

Contextual Challenges

- **Production and Utilisation framework challenges**
- **Knowledge production challenges**
- **Autonomy challenges**

Production and Utilisation Framework of Official Statistics

Preferred supplier of quality statistics

ELEMENTS OF THE SYSTEM

Personnel

Facilities

Organisation

**Geographic
organisation**

**Subject matter
organisation**

**Functional
Specialisation**

**Communication
Coordination**

**Statistical
Units**

**Data
Items**

Classifications

Standards

**Policy
Environment**

Governance

Users

Producers

Suppliers

Council

Act

Minister

Knowledge Society:

- Is a well informed Society in fact, that should become increasingly better informed
- In a complete knowledge society, all the knowledge of the world will be:
 - available to everyone
 - available everywhere
 - available simultaneously
 - available freely

Pre-conditions

- Non-technological infrastructure should first be upgraded
 - Literacy
 - Promotion of use
 - Promotion of access
 - Basic freedoms

Knowledge as information

- Semantic form and irrespective of empirical validity or pragmatic relevance

Knowledge as understanding

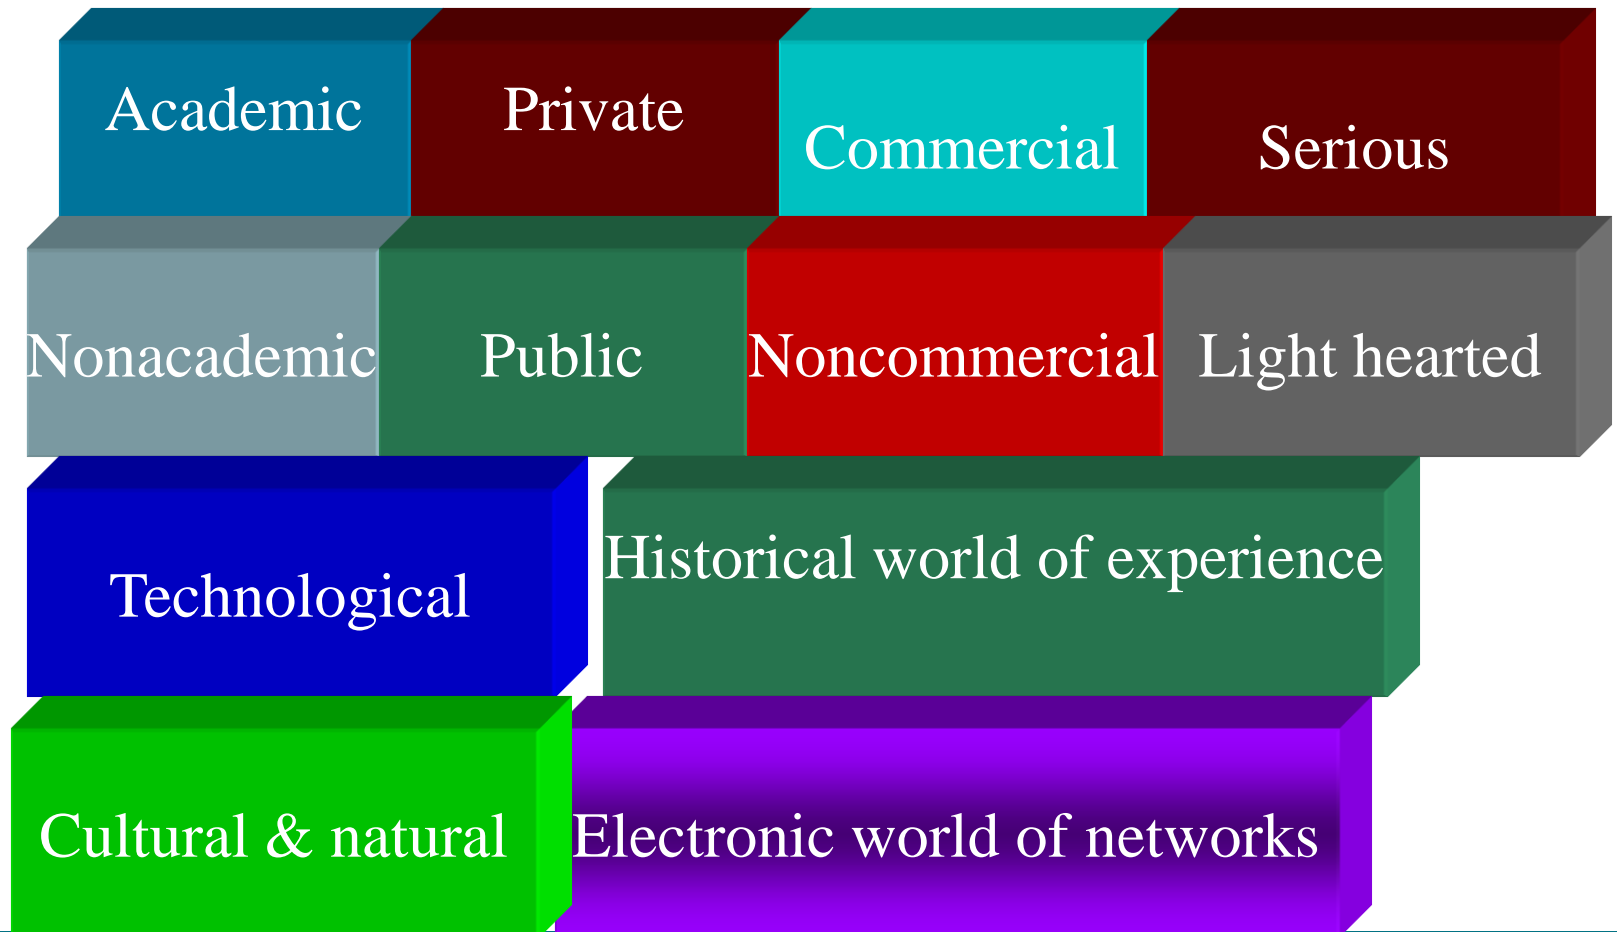

- Scientific knowledge as opposed to trivia in entertainment even amateur epistemology & public relations maneuvers

Knowledge as insight, competence and authority

- selected, activated and applied: implying applying specific rules of preference and creating added value (Bhor & Einstein)

Cognitive Map of the knowledge society as an aid to orientation

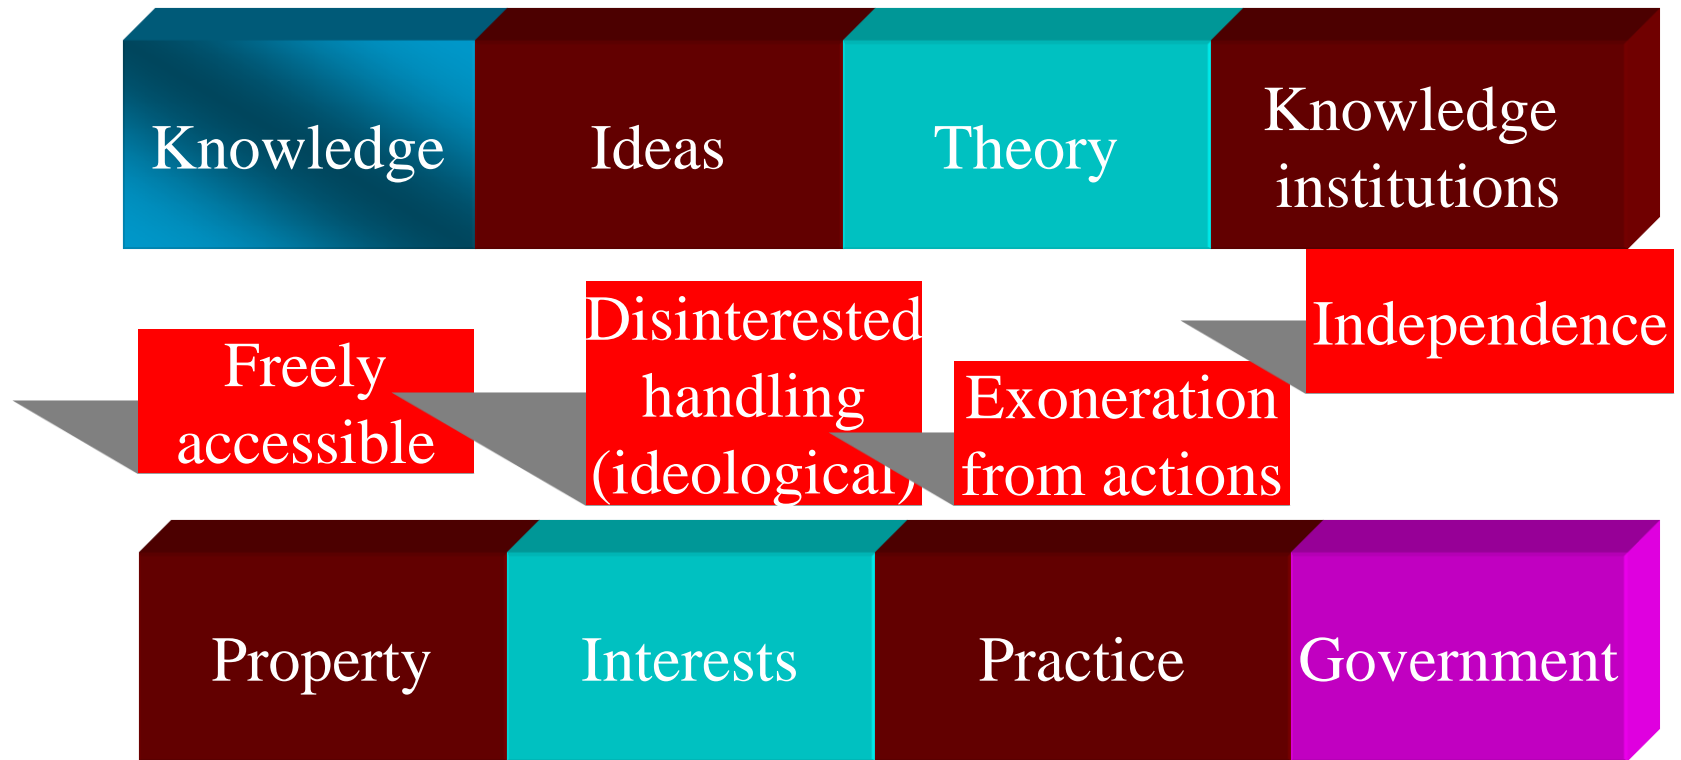

Order Policy of Knowledge & the Need For Separation

Positive Contributions of Official Statistics

- **Basic information on society**
- **Informational service as arise from legal rulings**
- **Raising information levels for the information society**
- **Provides orientation aids**
- **Supplement other info services**
- **Knowledge base for counter information**
- **Statistical advice for government**

Knowledge Deficits of Official Statistics

- **Unavoidable knowledge gaps e.g. the future**
- **Intentional ignorance e.g. where there should be stats but none exist**
- **Limited partial knowledge**
- **Legalised knowledge errors e.g, definitions & standards poverty**
- **Inherent limits of statistical information: By its nature it can't deliver insights**

Handlers of information & Risk Profile

- **Blind** (mailman not allowed to read)
- **Discreet** (butler knows but no comment)
- **Anonymous** (statistician notes mass data)
- **Mechanical** (politicians)
- **Participatory** (scientist excited by theory)
- **Interventionist** (knowledge = power)

Competency Profile & Risk Management

no insight understanding intervention

insight understanding **no** intervention

Understanding **no** insight intervention

insight intervention **no** understanding

insight understanding **no** intervention

insight understanding & intervention

Nonacademic **Purposive**

Public **Accessible**

Technological **Adaptable
portable**

Serious

**Resolve Life
Problems**

Noncommercial

Legal monopoly

Electronic world of networks

**Can be
Managed in a virtual world**

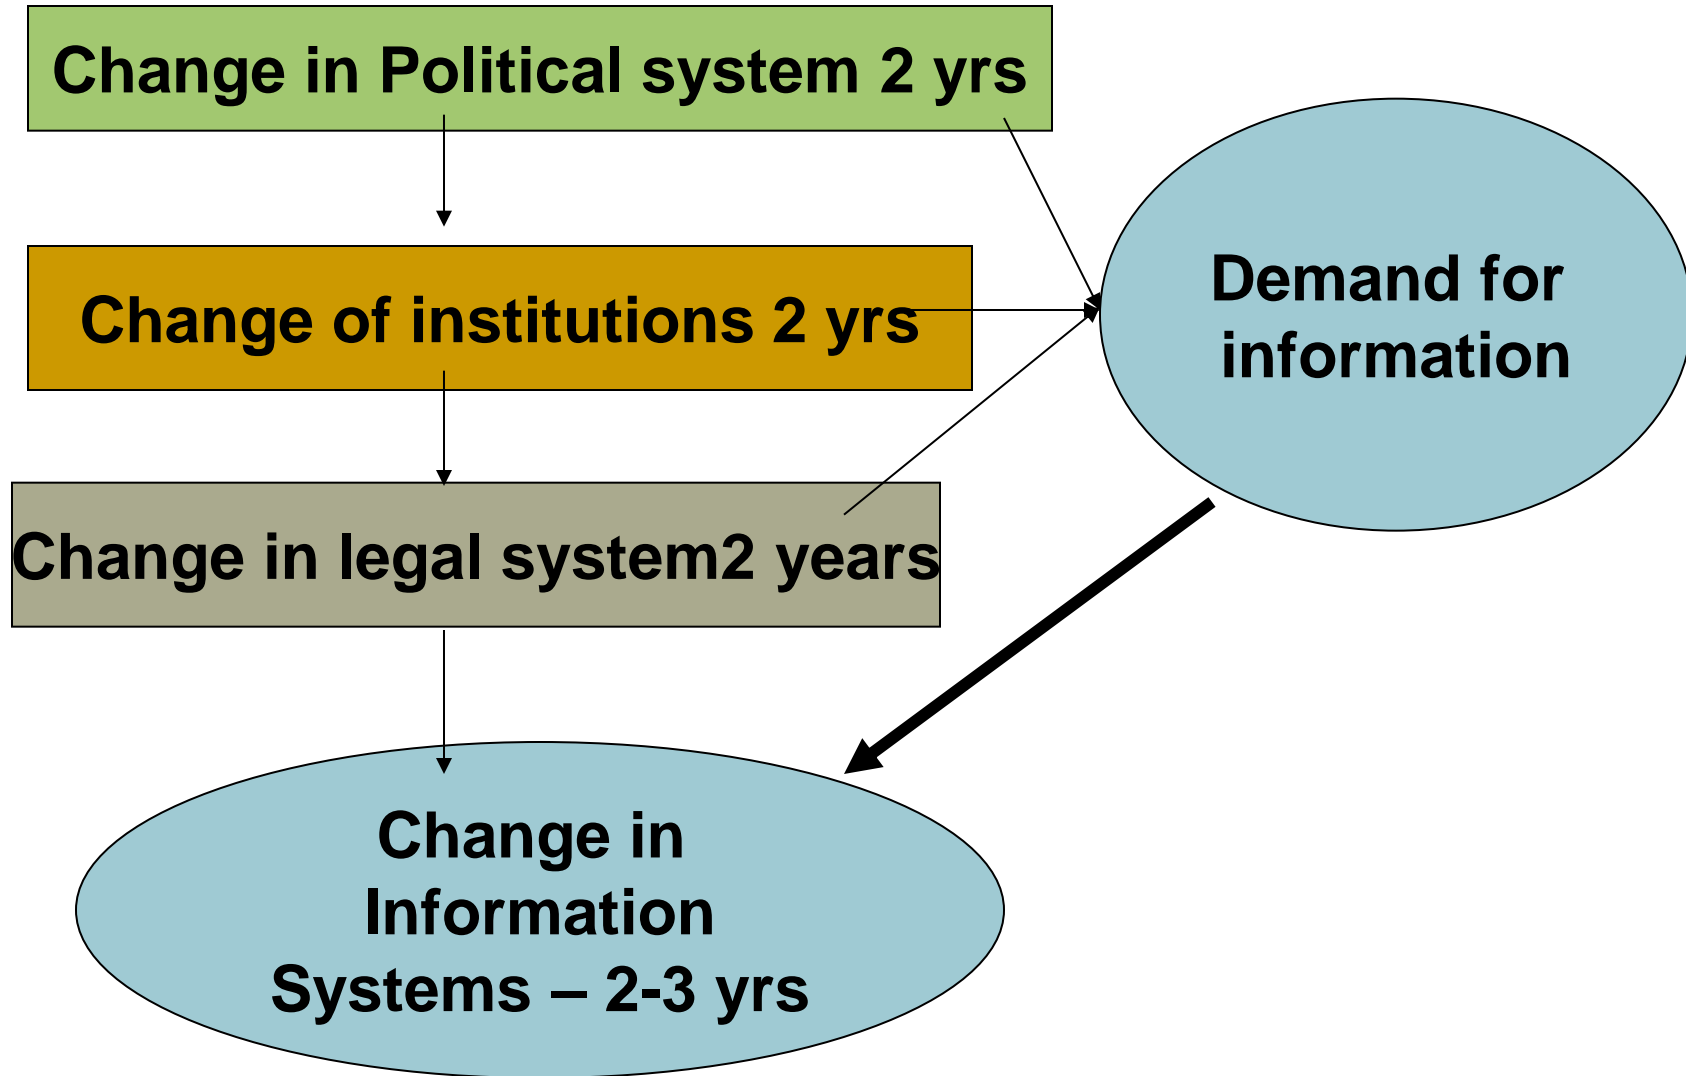

Transition Countries

- **Superstructure changes**
- **Economy and social relations information systems**
- **Construction out of destruction**

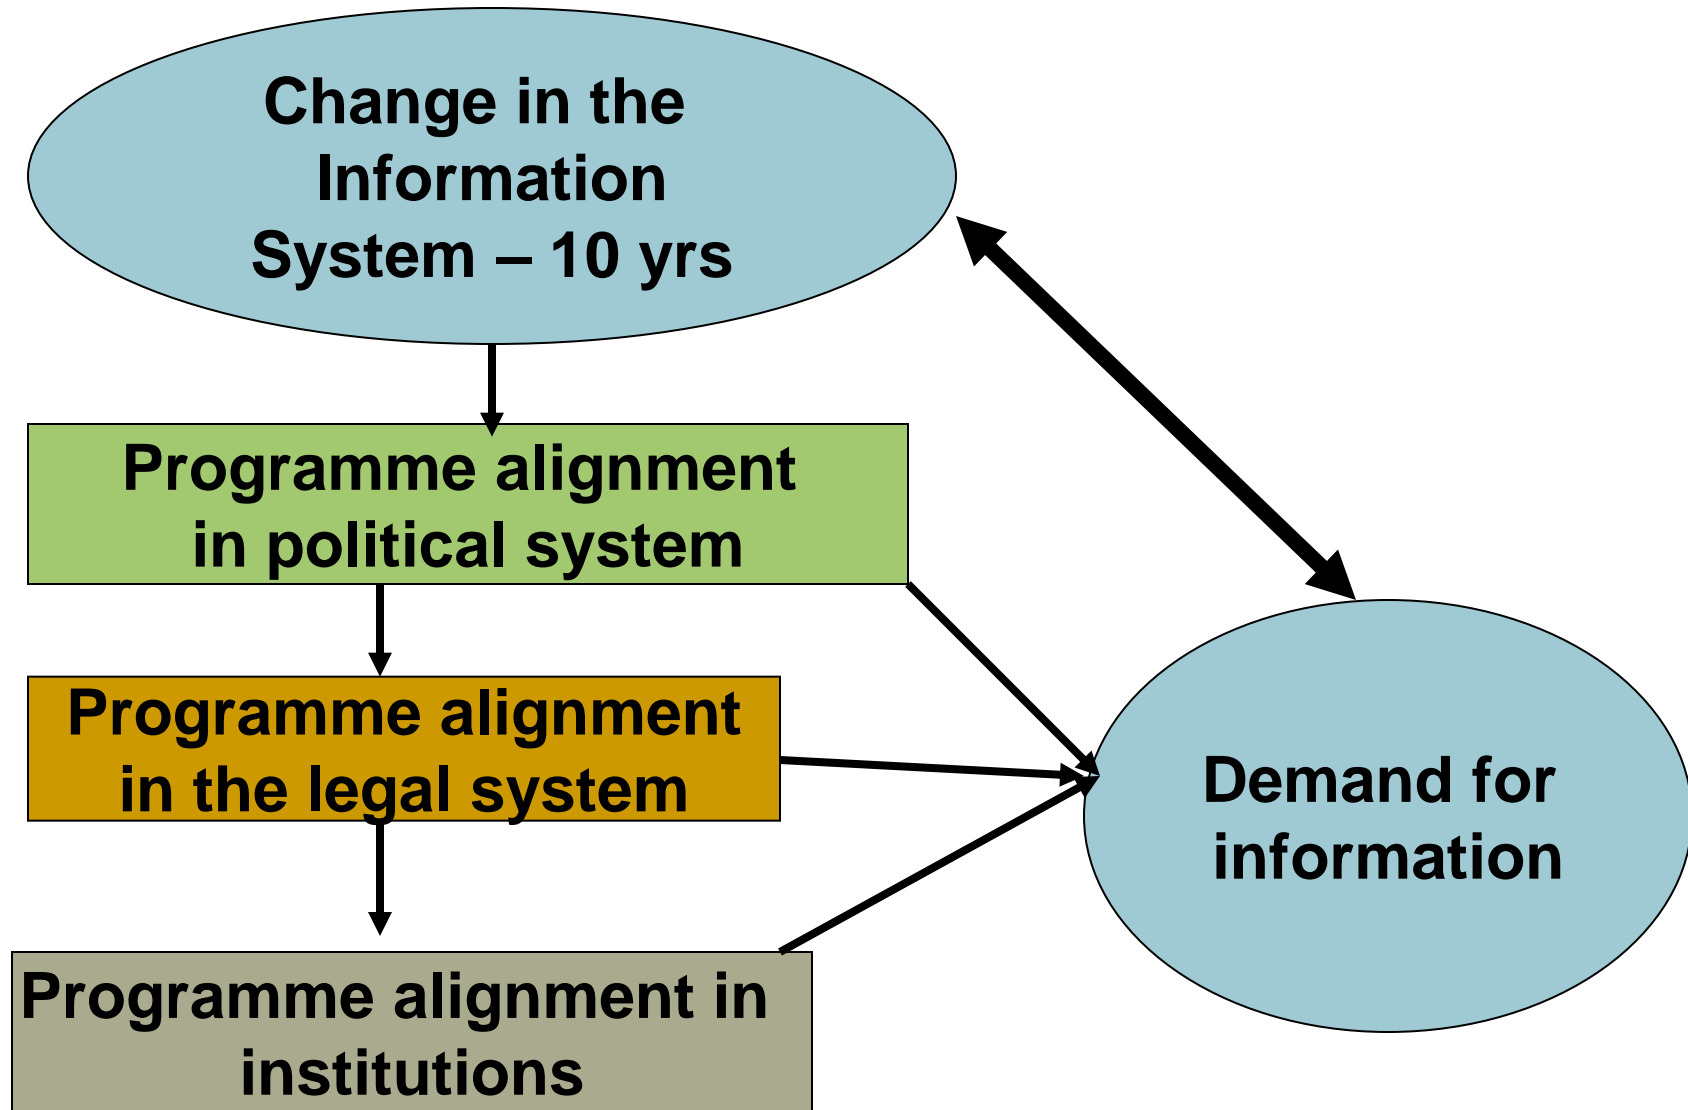

Transition Countries

Ends leadership Era

Transition Countries

Means Leadership Era

Content Challenges

- **Regional Statistics informing development**
- **Regional Statistics informing constituency delimitation**
- **Statistics informing poverty**
- **Improving Economic Statistics**
- **Competency and errors**
- **Public trust**

Population size vs UFI of former White and Black cities in SA, 1996

Source: Own calculations, 1996

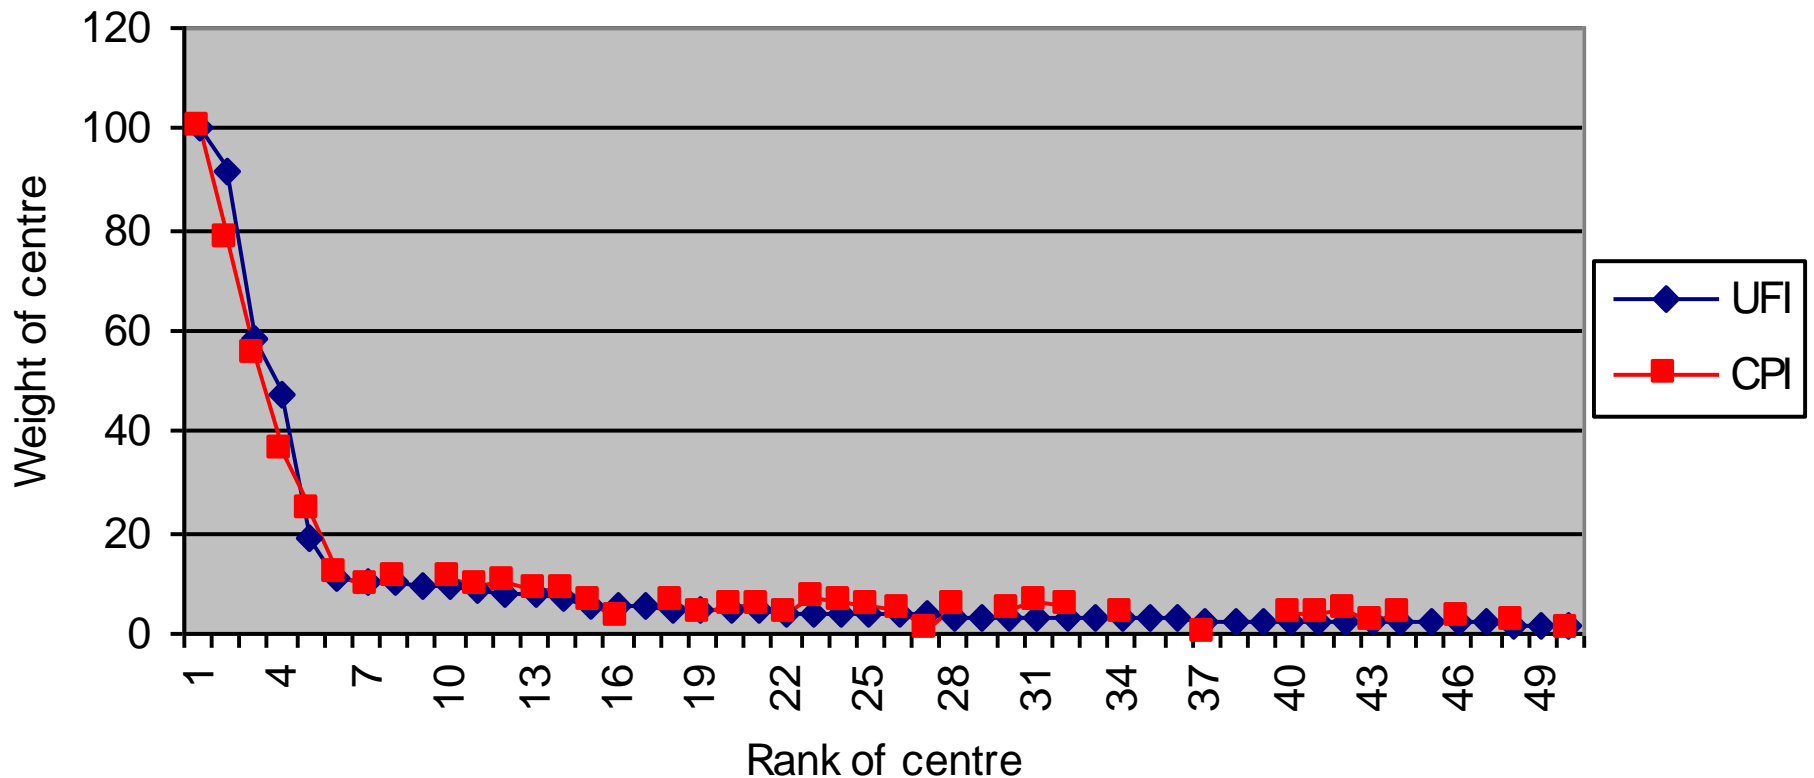

Statistics South Africa

CPI & UFI of the first 50 centres

Former Name	New Municipal Name	UFI-2003	CPI-1996				
Johannesburg	City of Johannesburg	100.00	100.00	Rustenburg	Rustenburg Municipality	3.79	4.78
Kaapstad	City of Cape Town	91.26	78.12	Polokwane	Polokwane Municipality	3.66	0.62
Durban	eThekweni Metropolitan	58.29	55.36	Vanderbijlpark	Emfuleni Municipality	3.52	5.50
Pretoria Sentraal	City of Tshwane	47.06	36.60	Krugersdorp	Mogale City Municipality	3.39	
Port Elizabeth	Nelson Mandela Metropolitan	19.11	24.37	Witbank	Emalahleni	3.34	4.78
Pinetown		10.74	12.15	Welkom	Matjhabeng Municipality	3.27	6.17
Germiston		10.54	9.75	Paarl	Drakenstein Municipality	3.24	5.22
Bloemfontein	Mangaung Municipality	10.38	10.66	Empangeni		3.08	
Pietermaritzburg	The Msunduzi Municipality	9.19		Potchefstroom	Potchefstroom Municipality	2.99	3.68

			33%	

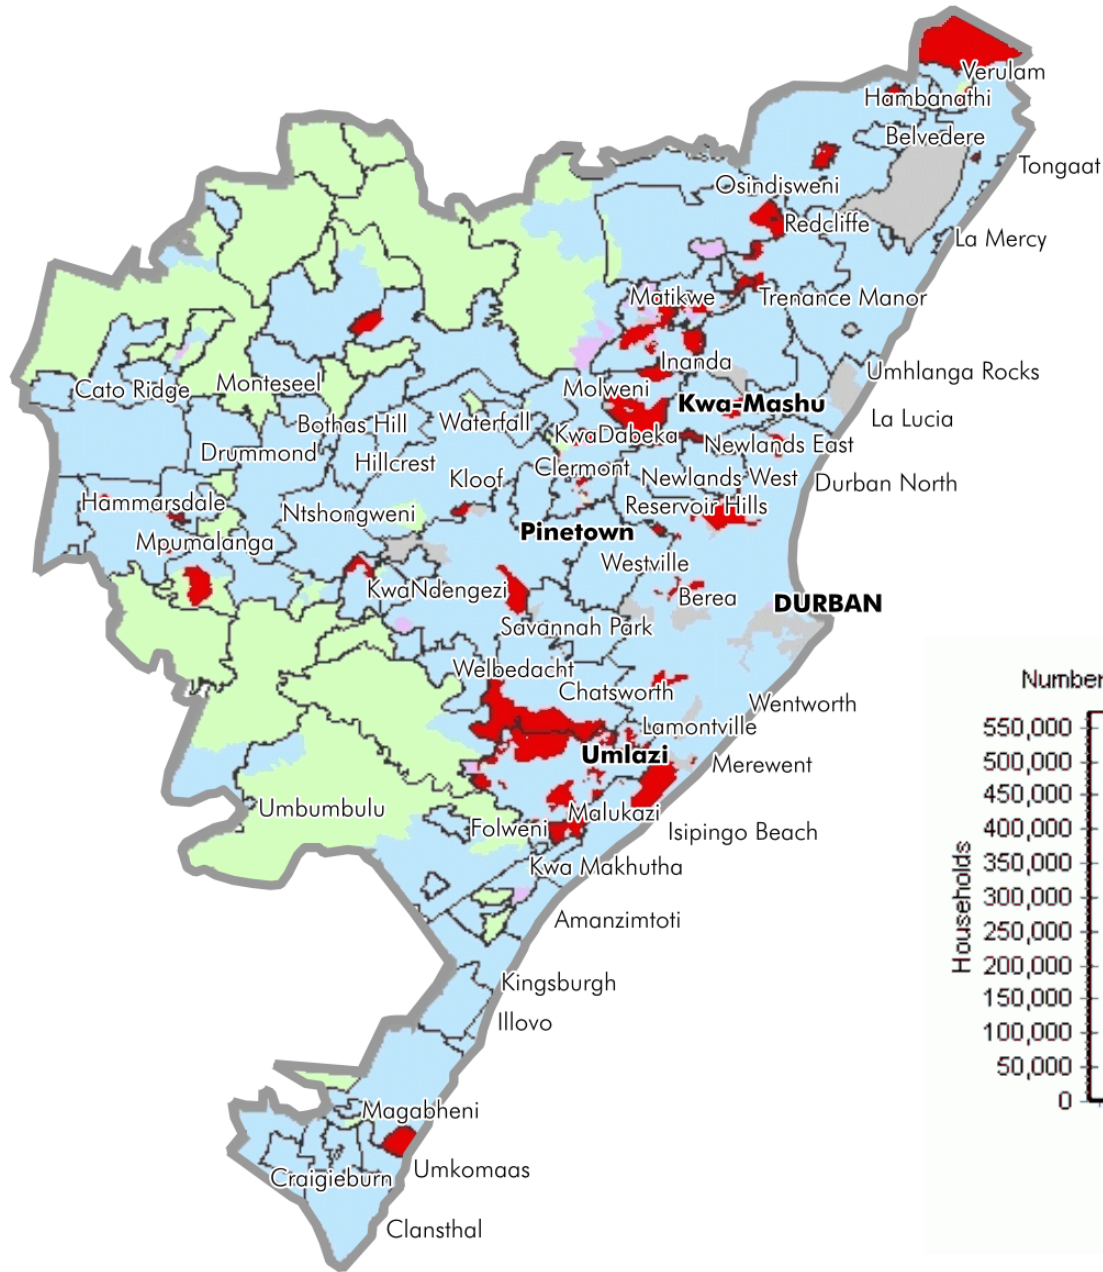

Poverty distribution based on monthly expenditure in KwaZulu-Natal by magisterial district

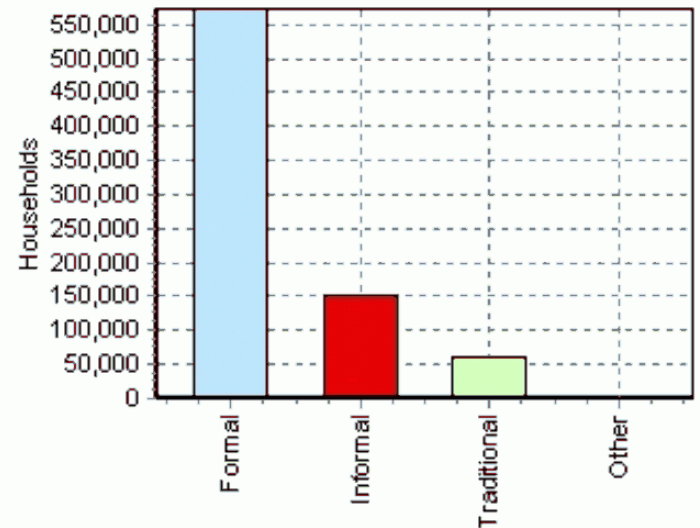

poverty

poverty

Dominant* Dwelling Type, 2001

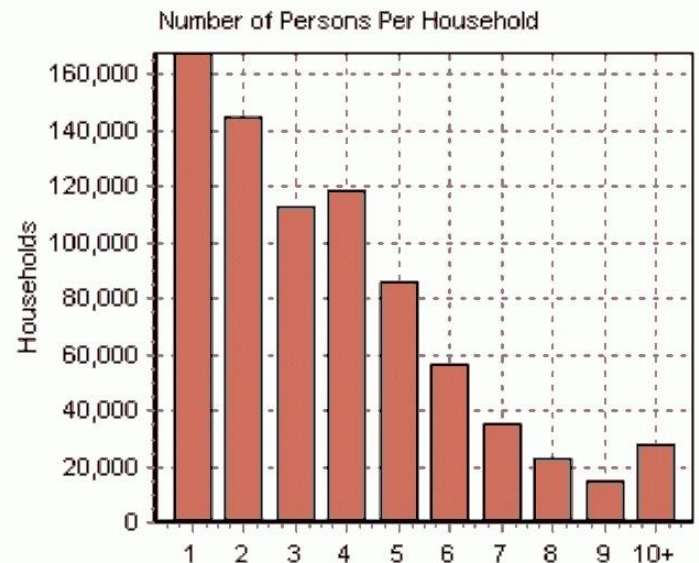

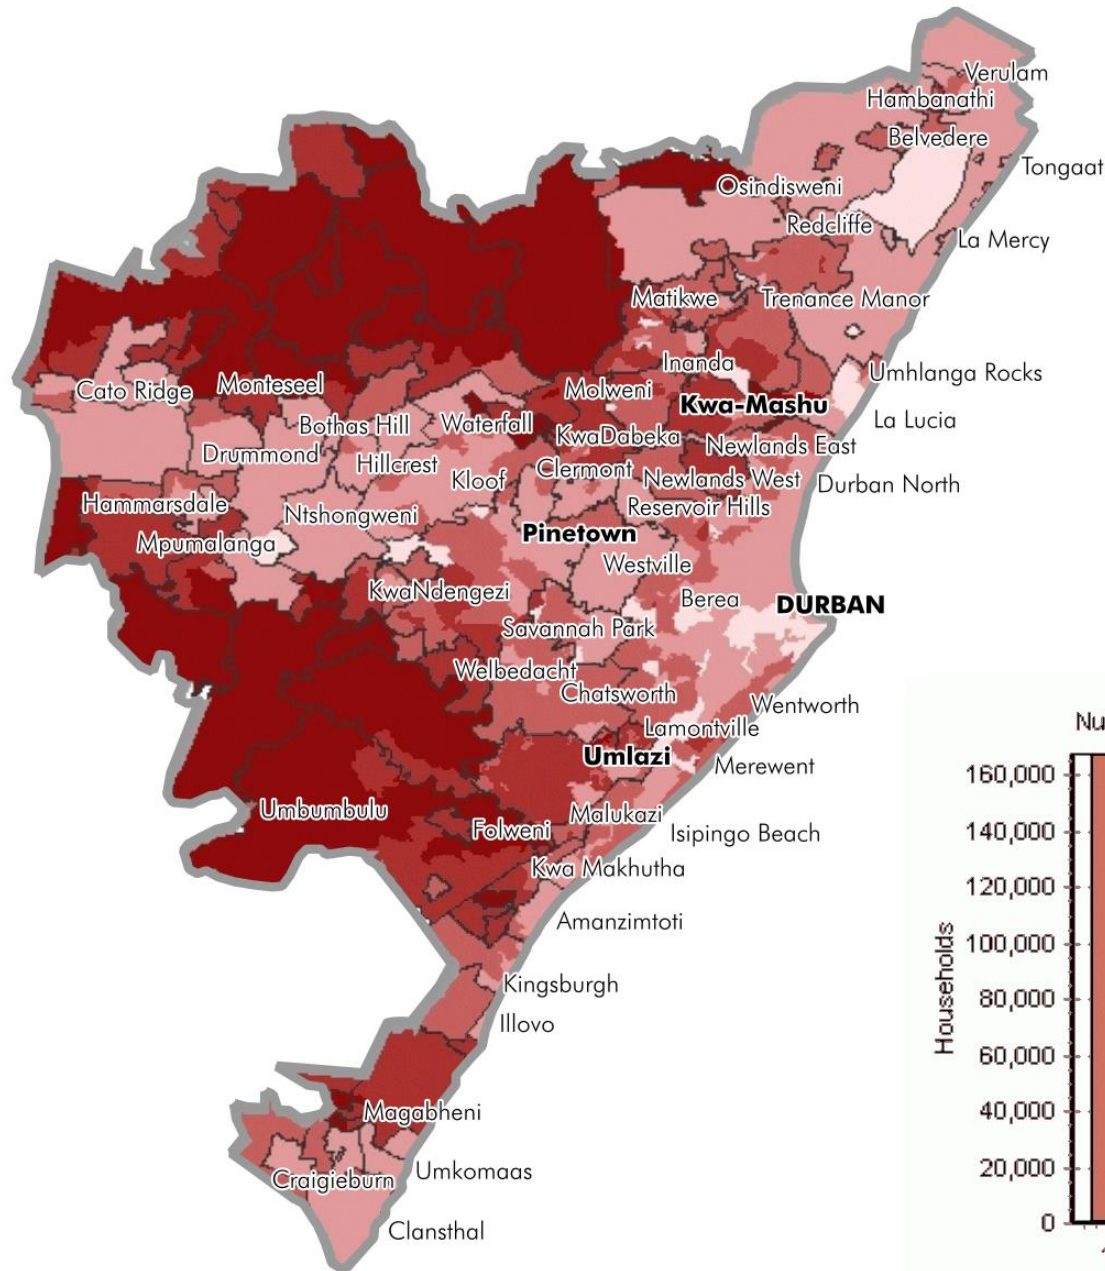

Number of Households in each type of Dwelling

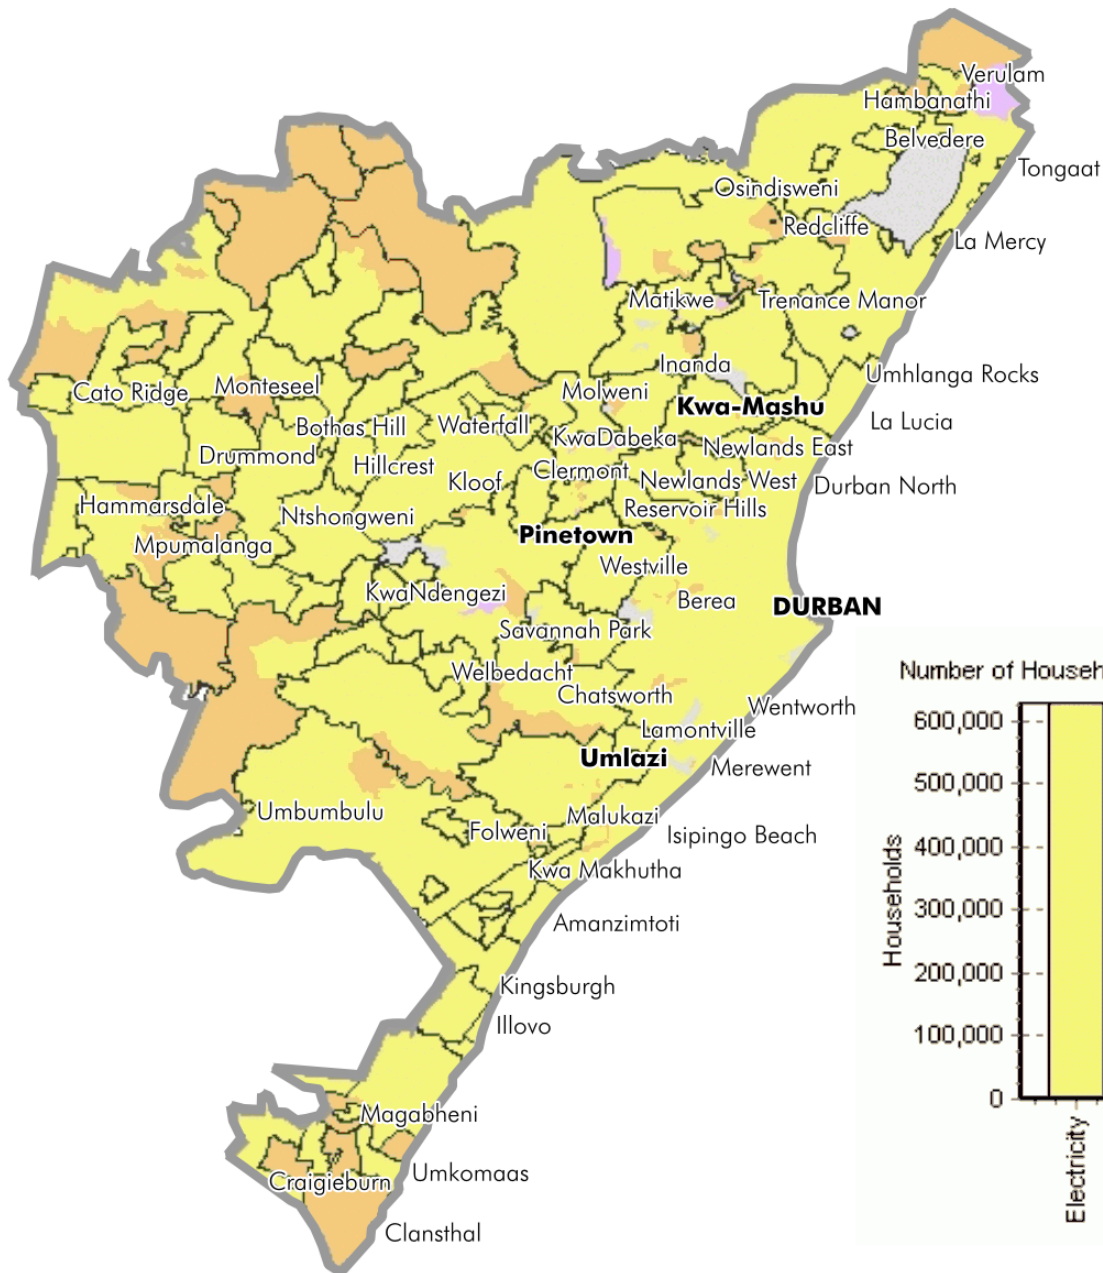

Dwelling Type ■ Formal ■ Informal ■ Traditional ■ Multiple ■ None

Household Size, 2001

Pers ons per Household* 0.00 - 1.47 1.48 - 3.22 3.23 - 4.31 4.32 - 5.55 5.56 - 11

Dominant* Energy Source for Lighting, 2001

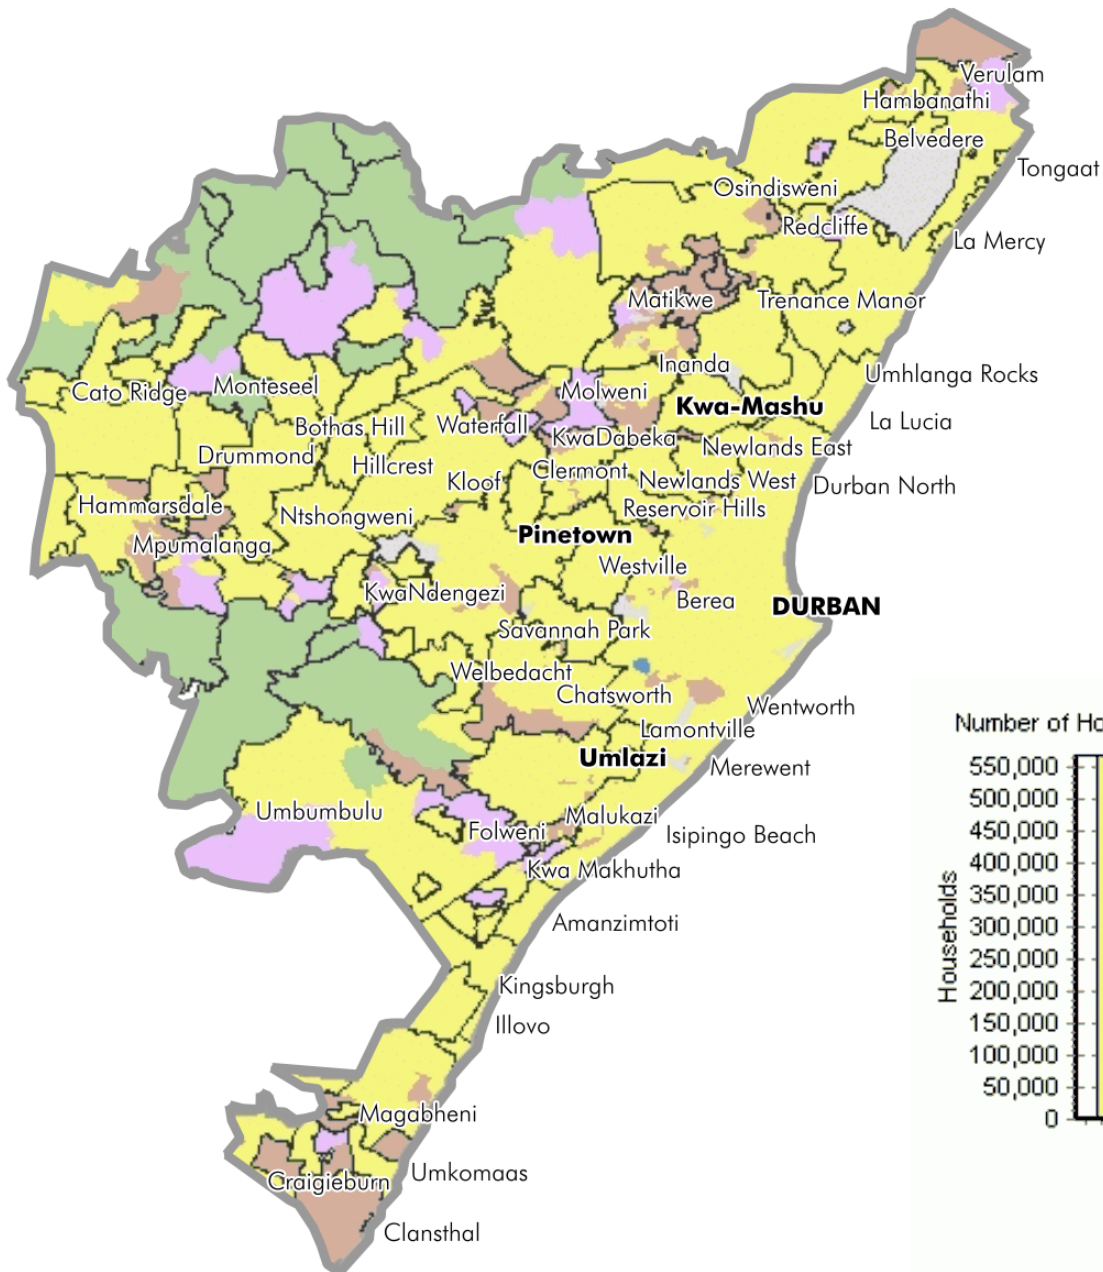

Number of Households per Source of Energy for Lighting

Energy Source Candles Electricity Gas Paraffin Solar Multiple Other None

Dominant* Energy Source for Cooking, 2001

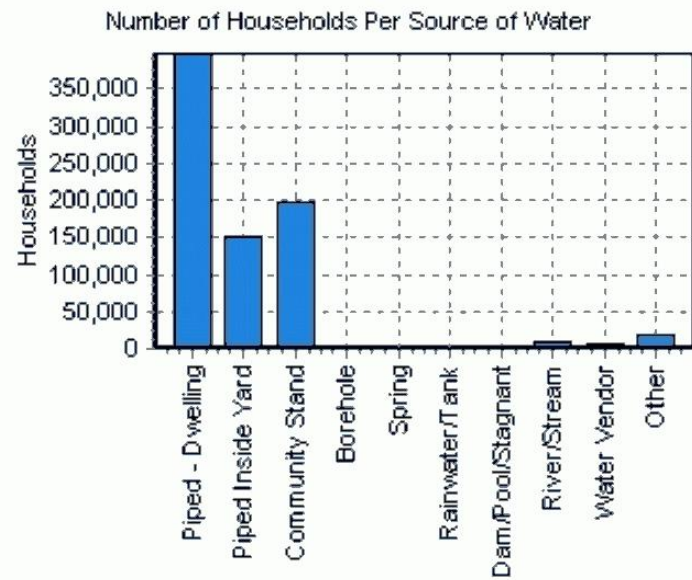

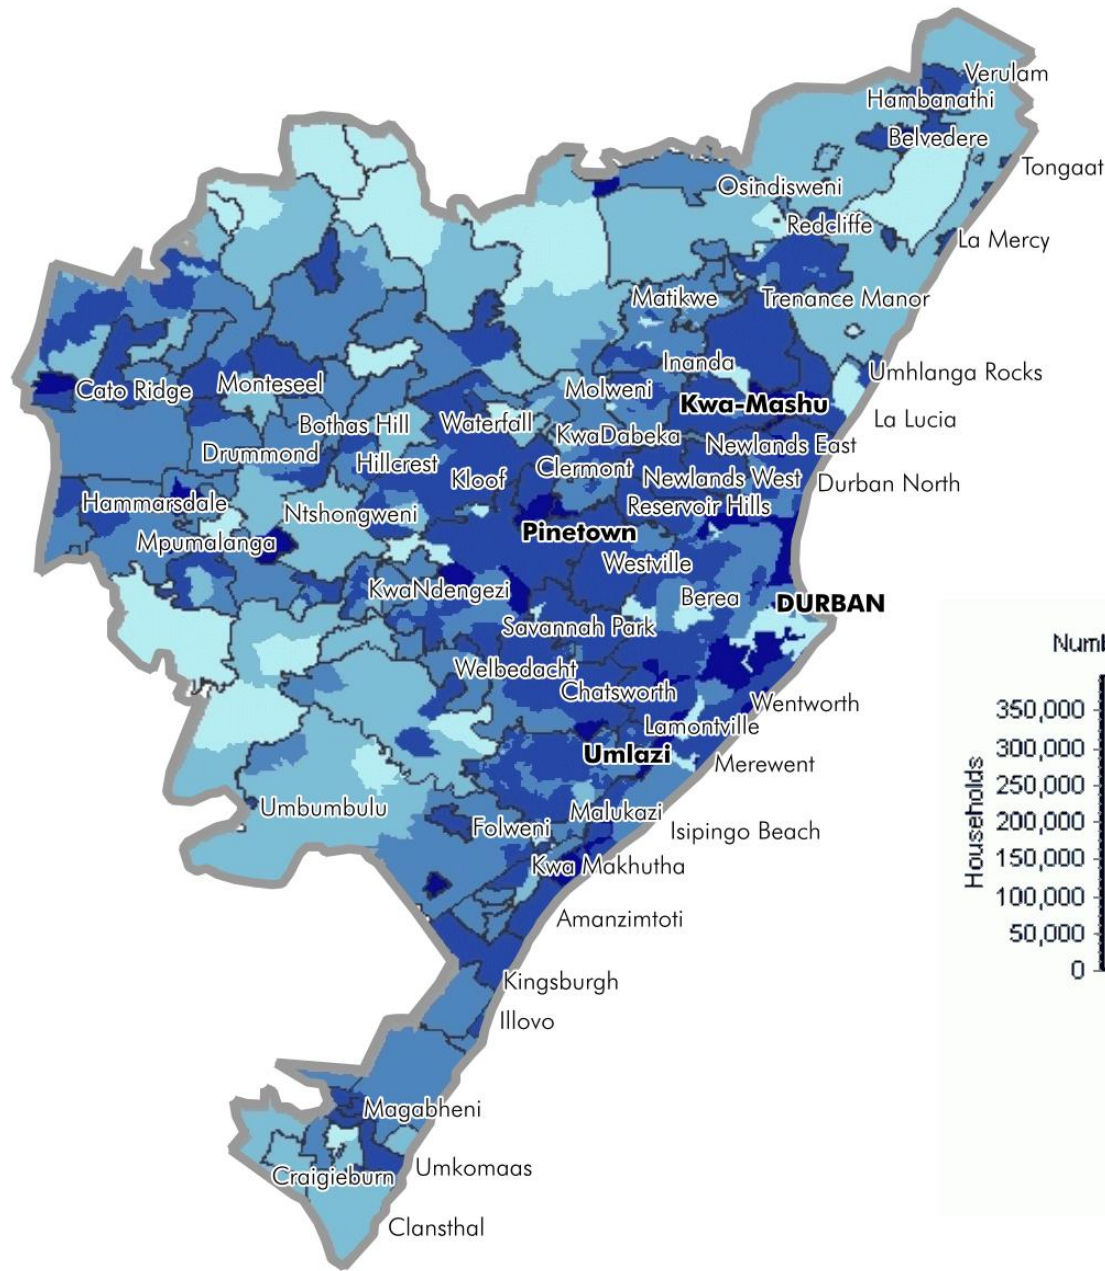

Number of Households per Source of Energy for Cooking

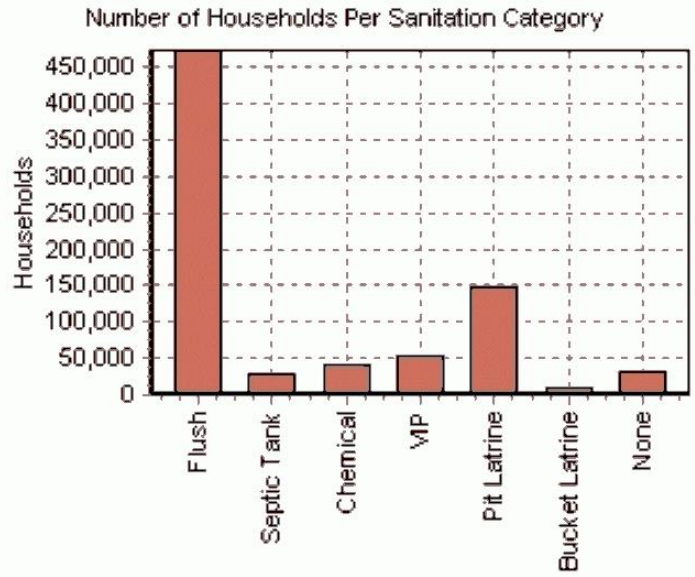

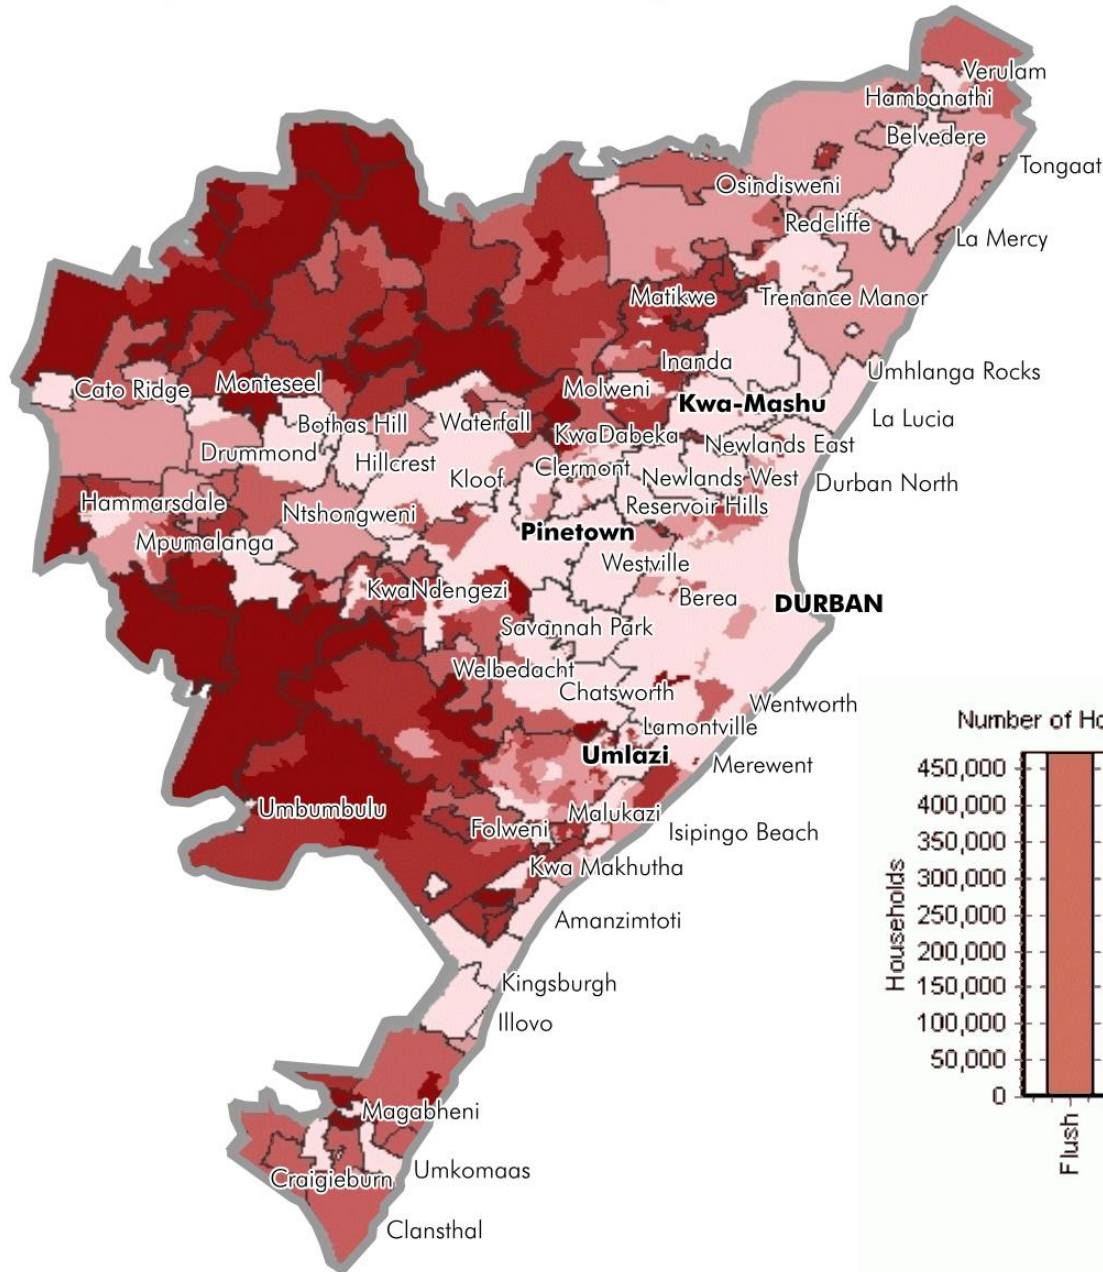

Energy Source Animal_Dung Coal Electricity Gas Paraffin Solar Wood Other Multiple

Percentage Households with Access to Piped Water, 2001

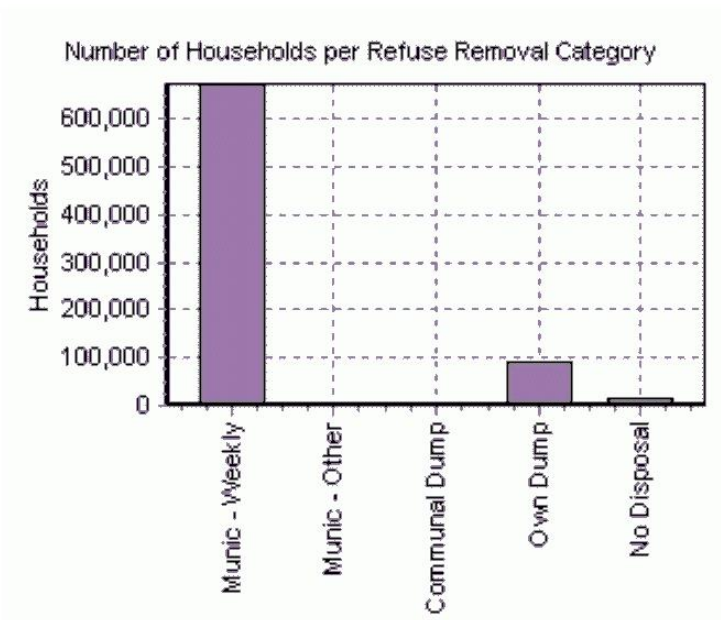

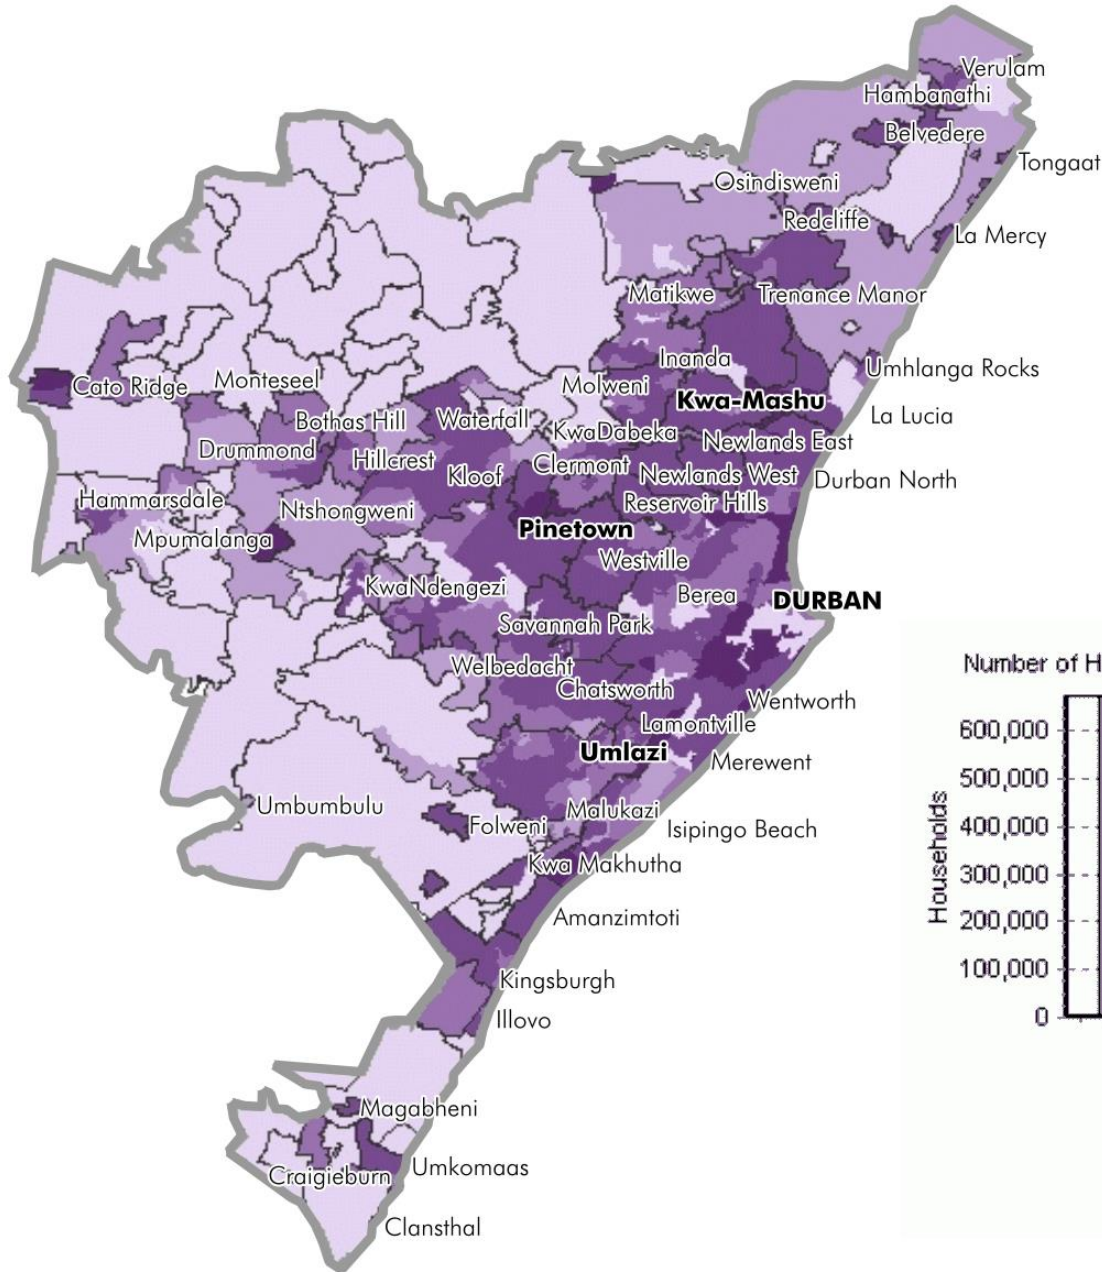

Percentage* 0.00 - 21.13 21.14 - 54.60 54.61 - 72.34 72.35 - 87.43 87.44 - 100.00

Percentage Households without "improved" Toilet Facilities, 2001

Percentage* 0.00 - 9.25 9.26 - 28.10 28.11 - 51.50 51.51 - 70.59 70.60 - 100.00

Percentage Households with Refuse Removal by Municipalities, 2001

Percentage* 0.00 - 19.17 19.18 - 52.55 52.56 - 72.62 72.63 - 87.43 87.44 - 100.00

Improving GDP

**Value
Chain**

Key Goal: Improve detail and coverage – service , construction, agriculture

	Business Register	Business Surveys
Past	New register – tax records First samples – VAT records	New samples drawn
Present	First publication – new BR Introduced Quality improvement survey	Bigger sample for Economic Activity Survey (EAS) Strengthened large sample surveys Introduced new tourism surveys Some economic analytical capacity
Future	<ul style="list-style-type: none"> - Establish Large Business unit; - Improving classifications; - Access to RSC levy data; - Business activity geo-referencing 	To improve: <ul style="list-style-type: none"> - coverage of short term indicators - response rates and sample size on manufacturing, trade & fin stats - classifications - economic analytical capacity - research expenditure side of GDP

**Value
Chain**

Key Goal: Update basket and ensure accuracy of index

	Income and Expenditure	CPI collection
Past	Every five years Recall method	Forced to revise CPI because of outdated rental data Substantive review of methodology Decide to change methodology to direct price collection
Present	Piloting diary method in the field	Pilot and implement new direct collection method in Gauteng and Mpumalanga
Future	Conduct diary method in field – 2005 Conduct IES every three years	Roll out new methodology in all provinces and phased in use of new data in index to end in 2006

Dealing with challenges

- Registers and their management
- Management information systems
- Frameworks including legislative ones
- Devolution of action
- Centralisation of metadata
- Competency improvement and uniformity of training
- Transparency

National Accounts

- Quarterly GDP

- Annual GDP
- GDP per region
- Supply and use tables

- Tourism Satellite Accounts
- Social Accounting Matrix
- Natural Resource Accounts

Monthly series
