

Latin America: Identity Management an evolving success story

Mia Harbitz

Consultant, Id-M

UNSD, NY, 4 March, 2016

The civil register: the ugly duckling of the public sector....?

Why did Latin America embrace Id-M?

- Tradition
- Voter registration
- Emerging democracies
- Social development and inclusion
- Need for better vital statistics
- Coordination and collaboration between development partners

Why does legal identity matter?

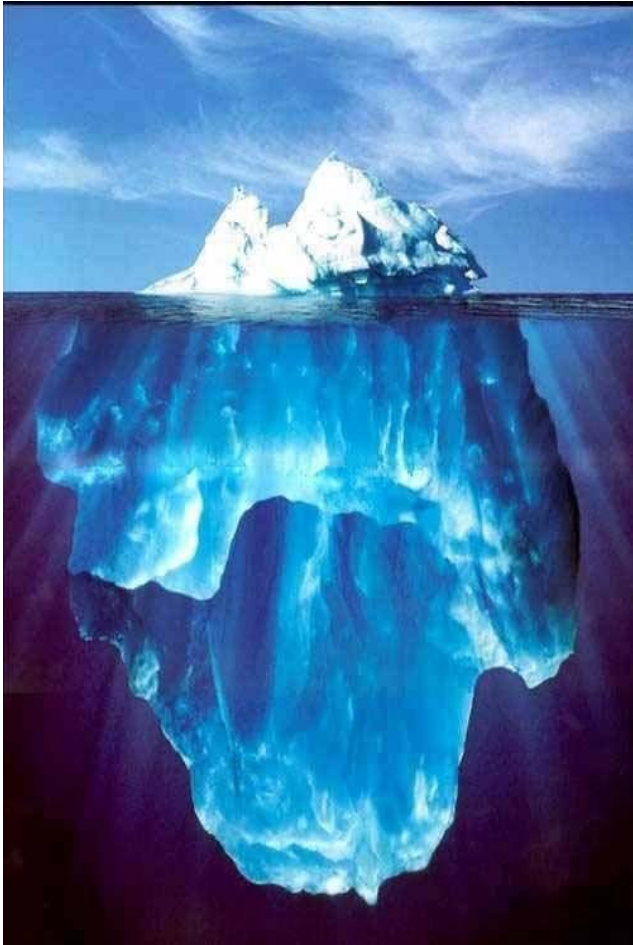

Individual

- Human right
- Access to benefits
- Access to services
- Financial independence
- Political participation and representation
- Judicial protection and due process

Public administration

- Better data
- Informed decision making
- Improved planning capacity
- Effective immunization programs
- Case based medical services
- Land titling

Legal identity for all, including birth registration

- Identity
- Input to vital statistics
- Veracity of documents

4. Interconectivity & Interoperability

3. Institutional capacity

✓ - Administrative asymmetries

✓ - Knowledge

2. ICT Infrastructure

1. Legal Framework

Collaboration among development partners

- WB and IDB : initiative to improve quality of statistics (2000)
- IDB and UNICEF and OAS : MOU (2006)
- Informal collaboration UNICEF, Plan, OAS, IDB, PAHO from 2000
- Creation of CLARCIEV 2002 with IDB and OAS participation

1. Legal frame works

- Patch work of out dated legal and regulatory frameworks
- Convoluted procedures
- “Quick fix”: Changed to administrative procedures for late registration

2. ICT infrastructure

- Wave of e-Government initiative
- Internet penetration
- Mobile penetration

- “Quick fix”: National policies, available financing and projects

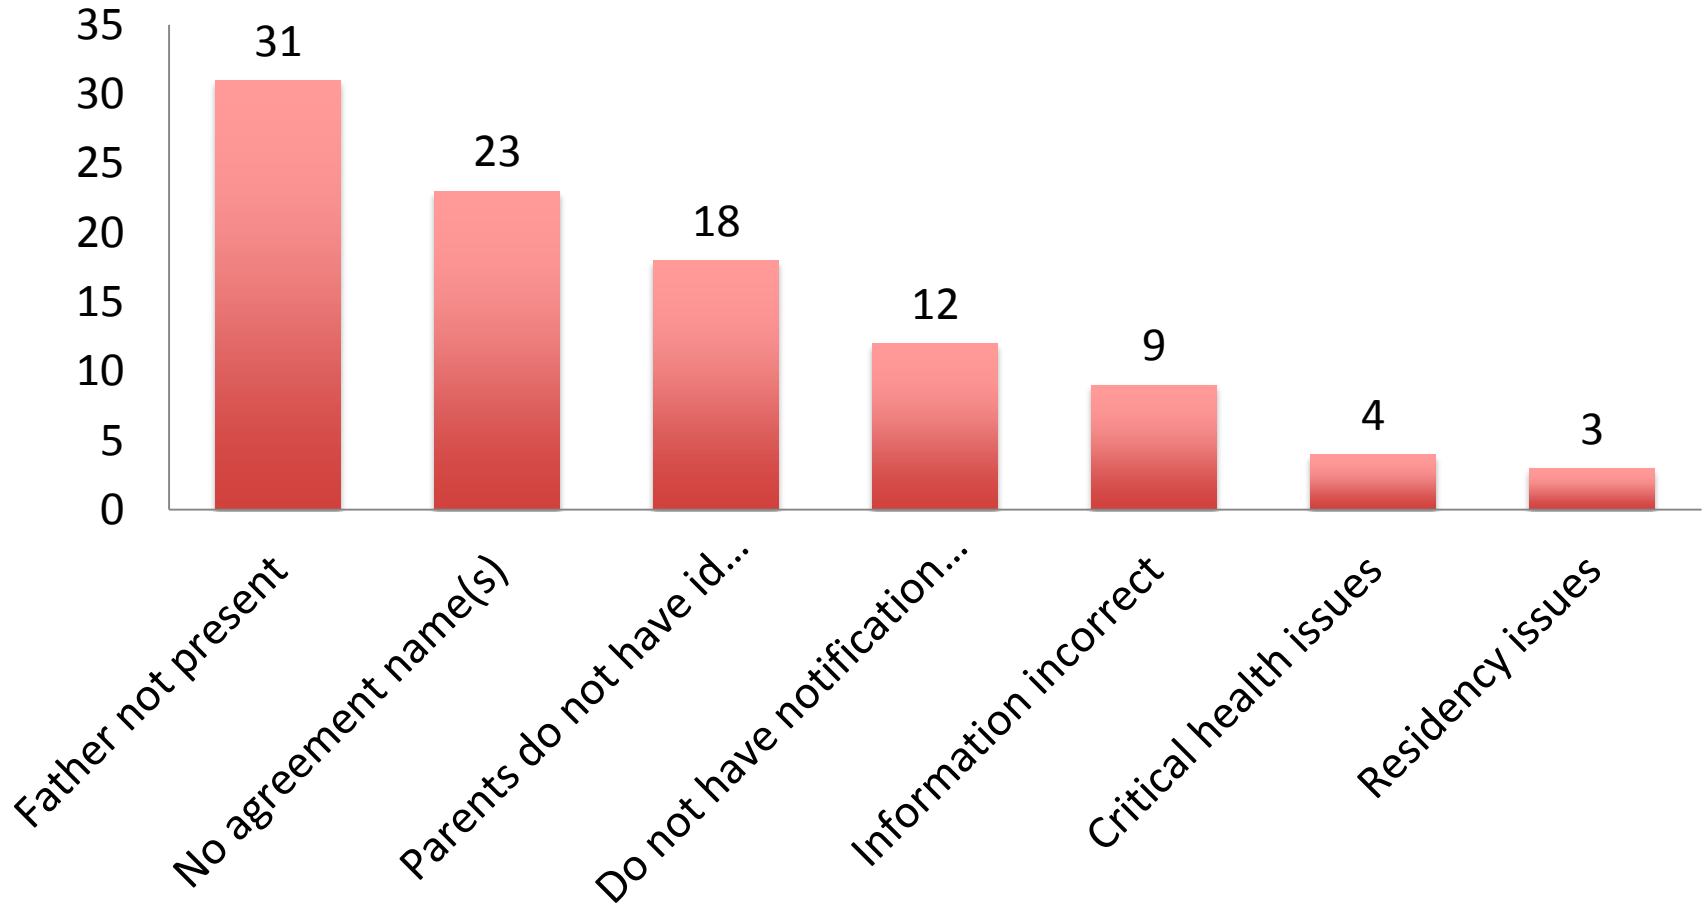

3. Institutional capacity

- Political leadership
- Political willingness to take on modernization projects
- “Quick fix”: availability of funding and technical support

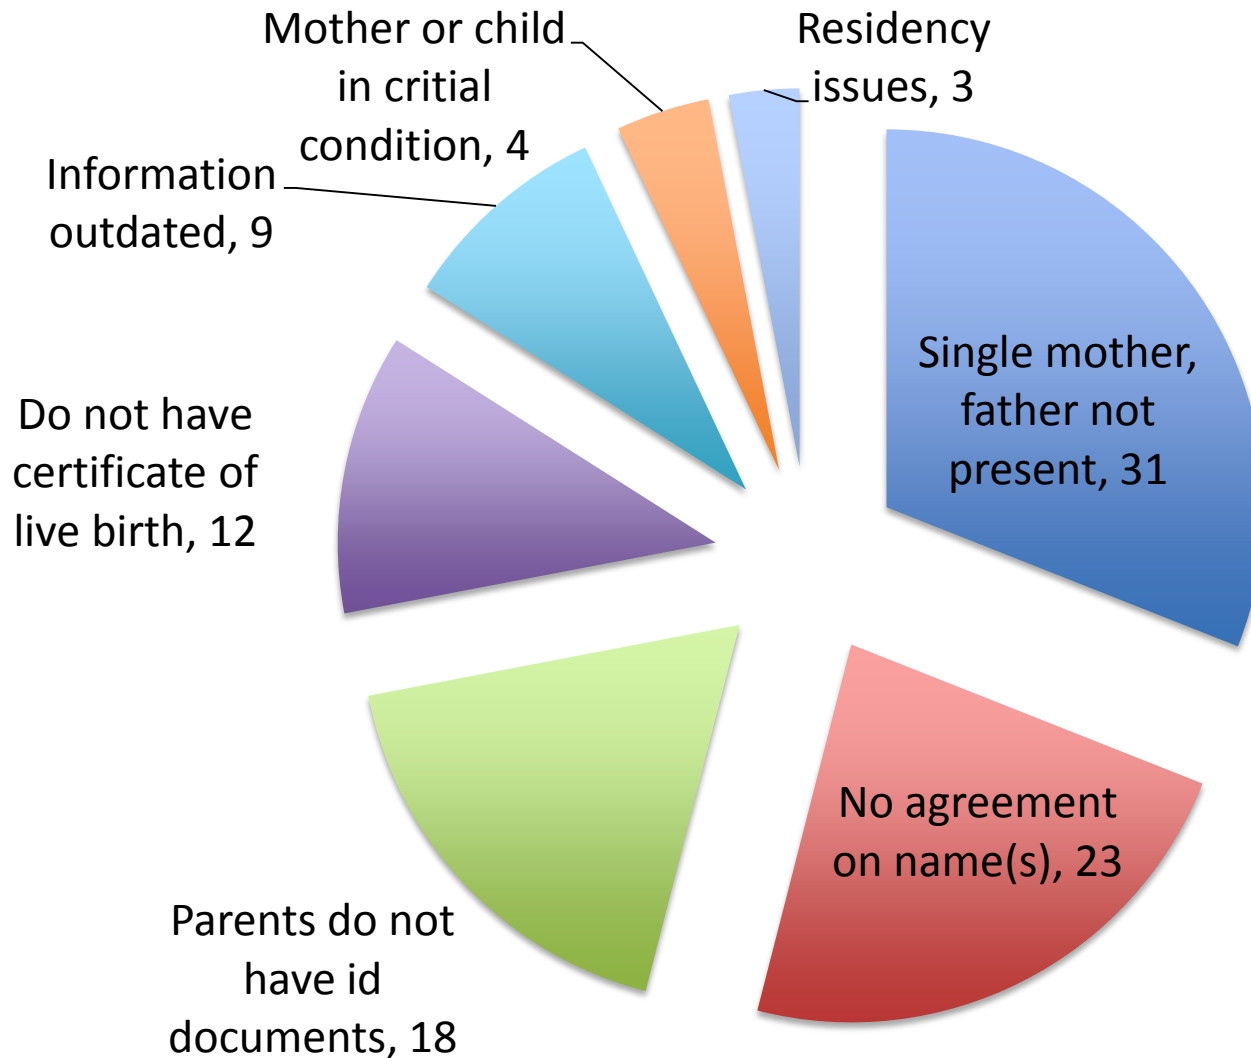

4. Interoperability

- Understanding of the need to use standards
- Trust relationships lacking
- Continues to be a challenge

Why children do not get registered at birth

Why children do not get registered at birth

Challenges

- Digital divide
- Temptation to collect more data
- Capacity to manage and use
- Financing and role of private sector

Digital challenges

Digital identity

Thank you for you attention
