Page 3/ Point 9	The strategic areas that were identified in need of strengthening ...	In accordance with area a and b, and considering the complex-and-complicated bureaucracy, another important area need to be taken into account is “regulatory framework”. It includes the creation and empowerment of national regulation to strengthen National Statistical System, so that coordination, partnership, communication and advocacy can be done in easier ways.
Page 3/ Point 12	The series of regional and sub-regional were organised as High-Level Forums .....	It needs “lower level” forums to discuss issues in “implementation and work level”, for example standards to be used, types of partnership/cooperation between NSO and stakeholders.
