

**UN STATISTICAL COMMISSION 48<sup>TH</sup> SESSION  
ITEMS FOR INFORMATION AND DISCUSSION**

Statistical Commission

Forty-eight session 7-10 March 2017

**Item 4 (b) of the provisional agenda**

**Items for information: HOUSEHOLD SURVEYS**

Mongolia the supports action plan and we would like to work actively in the work group.

**Comments**

- Based on data from studies of household we gather more information and support the creation of SDGs indicator system using household surveys. At present, it is necessary to increase sample size, based on the household survey for a referendum to add and module research. Because in this case, may deviate from the main purpose of this study, increasing sample size and sampling error.
- On the other hand, minimizing these errors by increasing sample, countries are facing capital and financial difficulties. Therefore, there is a need to study and implement the data collection solutions, sample design.
- Determining how appropriate that add a new module, provide an indicator, add a new indicator and add a new chapter.
  1. The future of the Working Group to implement the plan a regional approach is considered to be more effective, for participating countries to test and cooperation is proposed.
  2. The household surveys working group give advice, make a presentation about work performance and achievements especially in low and middle-income countries.
  3. Focus on making significant progress to change and improve household survey data collection methods and techniques.
    - Facilitates data collection and reduce the burden on families.
