

Indicator 16.2.2

“Number of victims of human trafficking per 100,000 population, by sex, age group and form of exploitation”

The present

The future

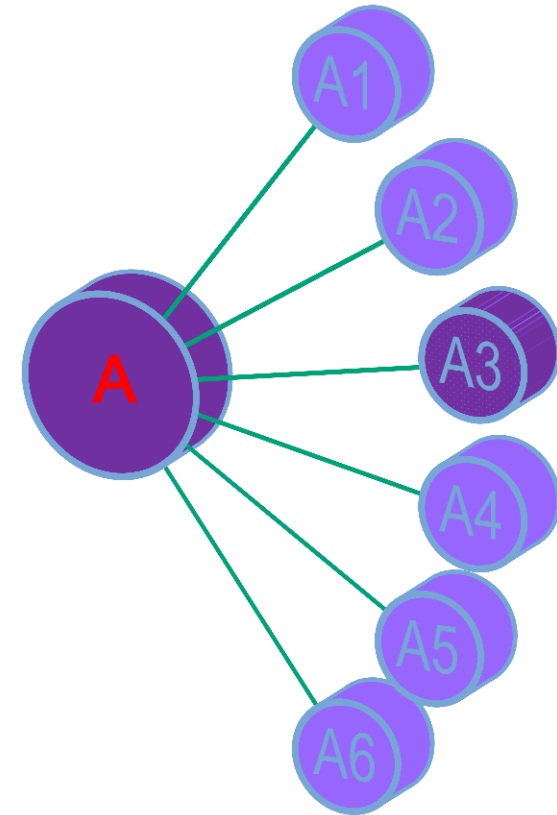

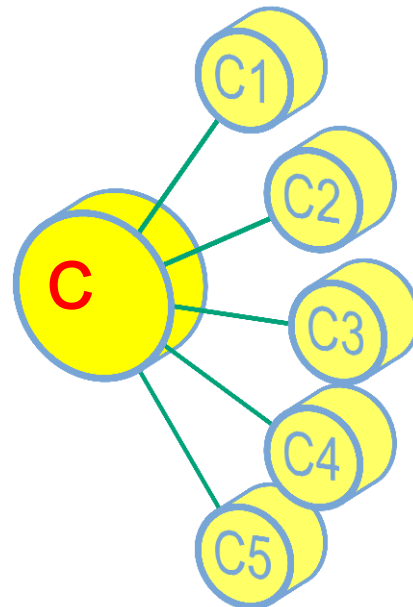

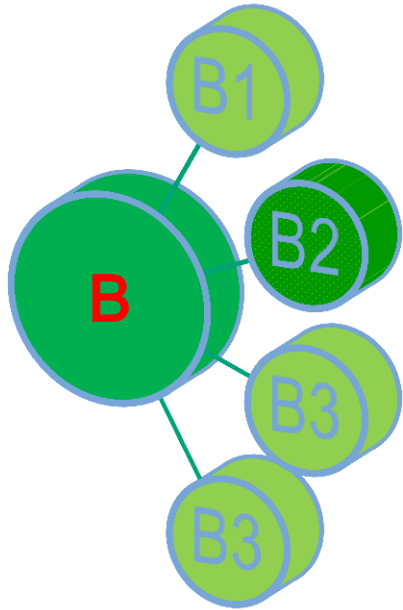

Estimating the number of trafficking victims

Multiple Systems Estimate (MSE) based on lists of detected and recorder trafficking victims by local authorities – *requires capacity to record victims*

Network scale approach in surveys – *requires significant funding and mainstreaming in national survey frameworks*

Network scale approach

Measuring trafficking for forced labour

- Joint work with ILO
- Developing a conceptual framework on trafficking and forced labour
- Operationalization of the elements of trafficking from the UN Trafficking in Persons Protocol definition
- Development of a sample questionnaire for victimization surveys and planning the pilot surveys

Conceptual framework

TRAFFICKING FOR FORCED LABOUR OF ADULTS
