

**Statistical Commission**

**Forty-ninth Session**

**6 - 9 March 2018**

**Item 3(k) of the provisional agenda \***

**Items for discussion and decision: climate change statistics**

## **COUNTRY NOTE OF TURKEY**

### **CLIMATE CHANGE STATISTICS**

Turkish Statistical Institute (TurkStat) is the national focal point of greenhouse gases (GHG) emissions inventory since 2006 and prepares GHG emissions inventory by coordinating other related institutions. TurkStat conducts these works under Climate Change Statistics Group which was newly established under the Environment, Energy and Transport Statistics Department while it was conducted under Environmental Account Group previously under the same department.

TurkStat is also a member of ECE task force on a set of key climate change related statistics and indicators. The study on production of the indicator set determined within the scope of the Task Force has also been started.
