

Comments/Suggestions for Statistical Commission 49th Session

New York, 6-9 March 2018

3(h) Items for discussion and decision: environmental-economic accounting

Page/Par.	Contents	Comments/Suggestions
2/1	(b) Stressed the value of SEEA in measuring Sustainable Development Goal indicators.	Requires a list of SDGs indicators that come from or possible to develop using SEEA.
3/5	... The website will increasingly include new features and tools for example to host forums and share documents. A knowledge base will also be established in the new website.	What mechanisms for country (ies) in order to share its documents or study? Should country send the documents to the web-admin or is there a tools in the website to upload documents of work that country want to share to generate discussion on a specific issue.
4/11	... A technical note linking the SEEA and Tourism Satellite Accounts has been developed and will be tested during 2018...	Not only a link between SEEA-TSA but also link among satellite accounts for example with Tourism Input-Output Table?
5/24	SEEA-compliant air emission accounts and energy accounts are two areas where estimation techniques give encouraging results...	BPS-Statistics Indonesia in 2017 has compiled physical energy flow account using generic PEFA builder from Eurostat with some modification. Air emission account then being compiled using the emission factor from UNFCCC due to lack of information on national emission factor.
6/31	The Statistical Institute for the Asia and the Pacific (SIAP) and ECA have already run the e-learning course on the SEEA Central Framework as part of an effort to extend the number of thematic areas on the SIAP elearning platform. Approximately 260 participants from Asia and Africa have taken part in this online training.	93 out of 260 participants for the e-learning course organize by UNSIAP are come from Indonesia, both central office and regional offices of BPS-Statistics Indonesia
7/37	The Committee has identified communication and mainstreaming the SEEA in emerging policy discussions, in particular on the SDGs as an important core activity of the group...	Policy stakeholder responsible for coordinating SDGs or SDGs focal point in country seems to detach or unaware on SEEA capability to support SDGs compilation. The committee need to stress out SEEA importance in this matter.
