

## Comments/Suggestions for Statistical Commission 49th Session

New York, 6-9 March 2018

### 3(o) Items for discussion and decision: work and employment statistics

| Page/Par. | Contents  | Comments/Suggestions  |
|-----------|---|---|
| 13/65     | (i) Express its support to the wide implementation of the new International Conference of Labour Statisticians (ICLS) standards at national and international levels with a view to improve the relevance of work and labour market statistics to enable close monitoring of the decent work-related SDG targets under various Goals, particularly 5 and 8. | <p>a. New Concepts on Status of Employment regarding workers in E-commerce</p> <p>The emergence of E-commerce creates the need to re-evaluate the employment status of workers in the E-commerce as well as those taking advantage of the digital economy with regards to paid work. There is a strong international consensus that there should be a new status for workers engaging in online business, whether selling or simply using online access to do their work. Even though the term independent contractor has not be made official, however starting in 2018, BPS-Statistics Indonesia has already incorporated short questions related to E-commerce in order to get profile of E-commerce that has never been produced.</p> |
