

UNSC Side Event

Generic Model of Business Processes of Geoinformation

Organized by: Brazil and Mexico

Date: Wed, 07-Mar-2018

Time: 08:15-09:30

Room no.: CR.A

Contact(s): Roberto Sant'Anna (roberto.santanna@ibge.gov.br) (+55 21 2142 4624)

Projection equipment/services requested:

Notes: WiFi available in the room (no password required)

Languages: English.

Promoting Institutions: IBGE (Brazil) and INEGI (Mexico)

Target audience: National Statistical Institutes, representatives of the UNSD, Agencies.

Purpose: present the initiatives taken into action by the IBGE and INEGI through tools based on the GSBPM (Generic Statistical Business Process Model), originally created by UNECE (United Nations Economic Commission for Europe). Said tools aim to describe, in a generic manner, the set of processes and actions which are necessary to the production of official geoscientific information.

Agenda:

- 1) IBGE's President (will chair meeting – 5 min)
- 2) INEGI's President (will chair meeting – 5 min)
- 3) Presentations by IBGE-Brazil – Deputy Director of Geoscience – 20 min
The GGIBPM (Generic Geoinformational Business Process Model)
- 4) Presentations by INEGI-Mexico – Julio Santaella 20 min
- 5) Contributions from participants (15 min)
- 6) IBGE and INEGI Presidents (10 min)
Conclusions & closure
