# HARNESSING THE POWER: CRVS SYSTEMS FOR 2030 GLOBAL AGENDAS

*Irina Dincu*

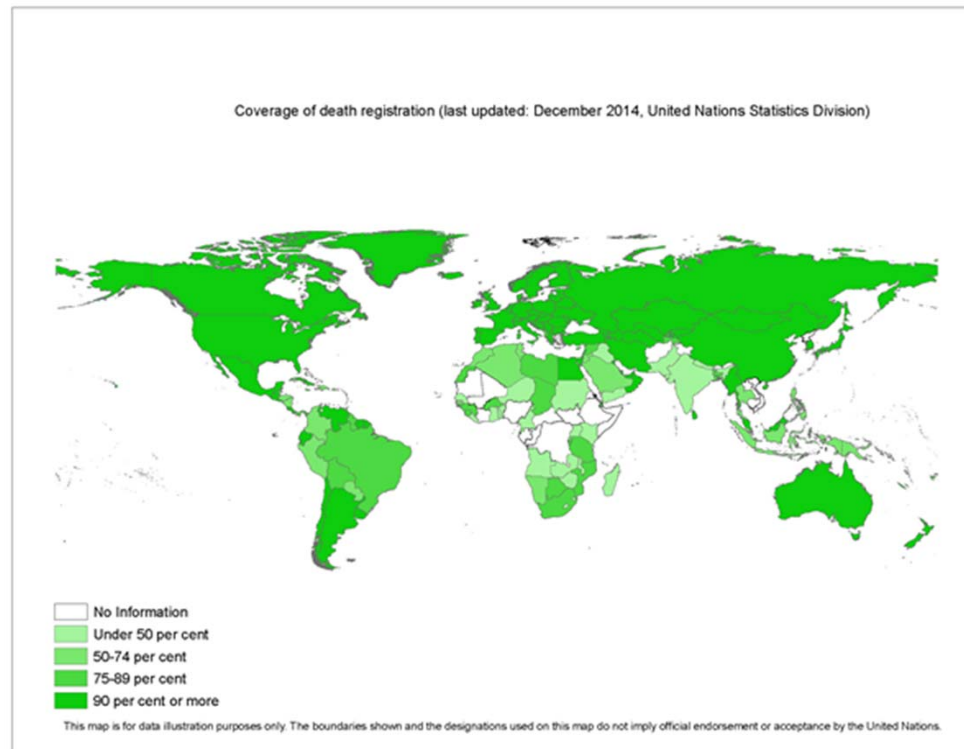

*Senior Programme Specialist CRVS  
Centre of Excellence for CRVS Systems*

*Ottawa, Canada*

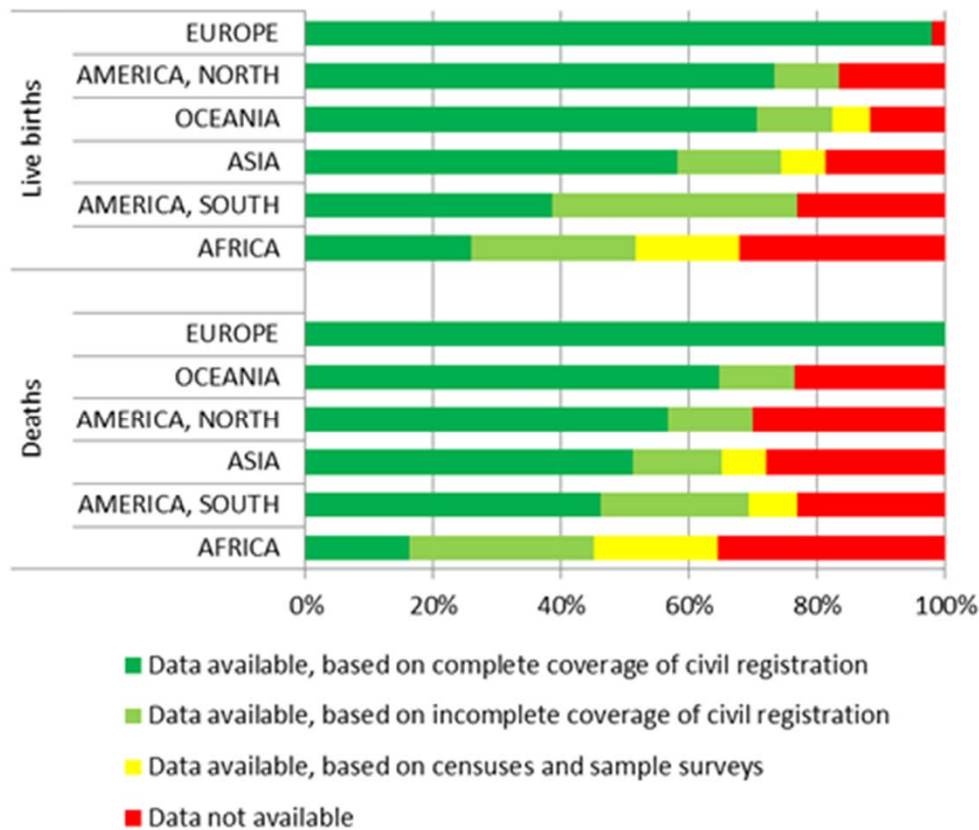

# Death registration coverage

# Availability of Vital Statistics – source UNSD

## Themes of the conference

- Inclusive Development
- Human Centred Design
- Conflict and Emergency Settings
- Unique ID systems
- Legal Framework and Protection of Identities
- Health in Inclusive Development
- Digital Innovations

## Unique Challenges and Opportunities

- Afghanistan, Aga Khan University- combating CRVS in conflict settings
- Common CRVS platform linking the countries in the Pacific
- Using incentives to increase birth registration coverage
- Linking CR to ID systems for better delivery of social protection schemes
- Death registration and women economic empowerment
- Tanzania, using Health Centres to provide CRVS access to users
- Modernizing/amending legal frameworks to be more inclusive and address gender issues

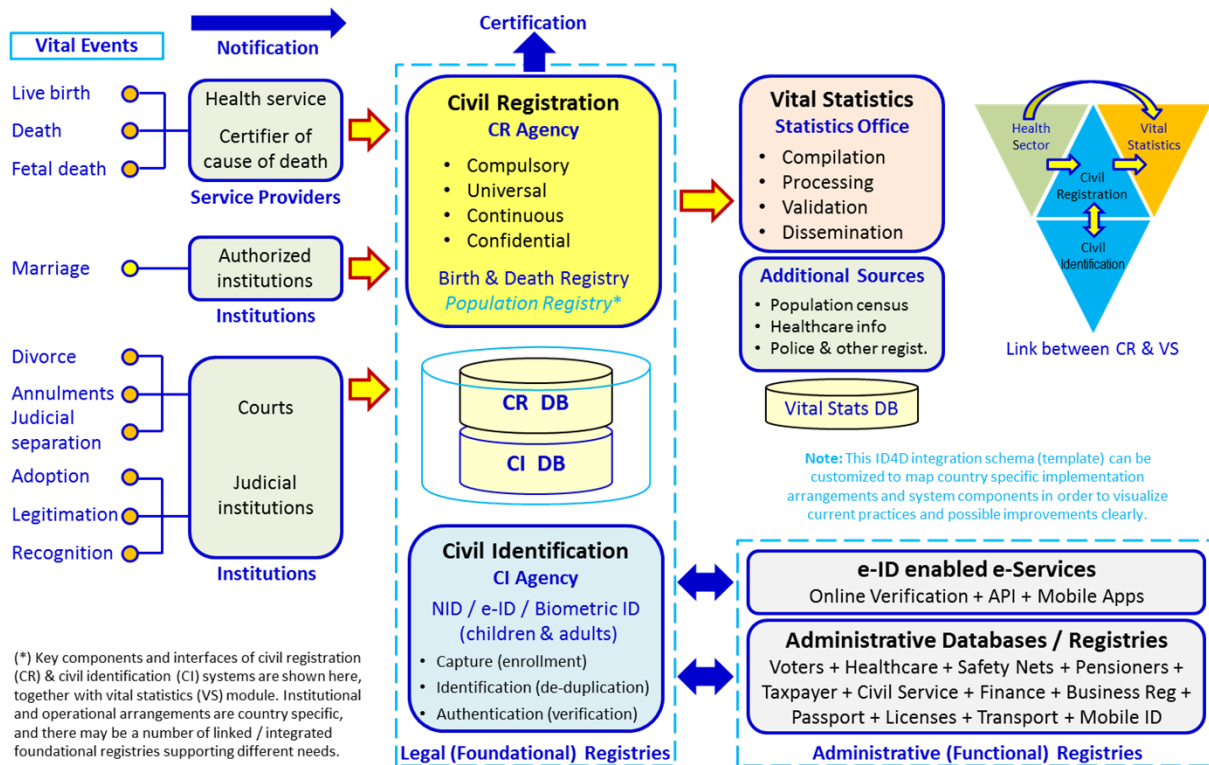

# Innovation Labs

- Business Process mapping  
*The role of CRVS business process improvement (BPI) in managing the complexity of CRVS systems*
- Modern Data Analytics  
*Opportunities in contemporary data analytics as they apply to modern CRVS systems.*
- Health  
*The potential of health systems to contribute improving birth, death and cause of death in CRVS systems.*
- Blockchain  
*The possibilities of using blockchain for CRVS and associated systems*
- Human Centred Design  
*Increasing demand and utilization of services through community partnerships in modern CRVS systems*
- CRVS Open Systems  
*The applicability of OpenCRVS across a range of country contexts*

# Calls to Action

## Civil Registration & Identification

• Source : WB

## Calls to Action- Upon the Global Group

- A call upon the Global CRVS Group to facilitate in collaboration with other stakeholder to explore these opportunities for accelerating progress to ensure that countries have access to sound technical approaches that will advance CRVS systems by:
- **Developing a global plan for CRVS system strengthening whose principles will include :**
- Country ownership and leadership in CRVS development
- Getting the fundamentals right, with innovations contributing to the fundamental need
- A primary commitment to building or strengthening local capacity
- A commitment to scalable and sustainable solutions using innovative processes and technologies

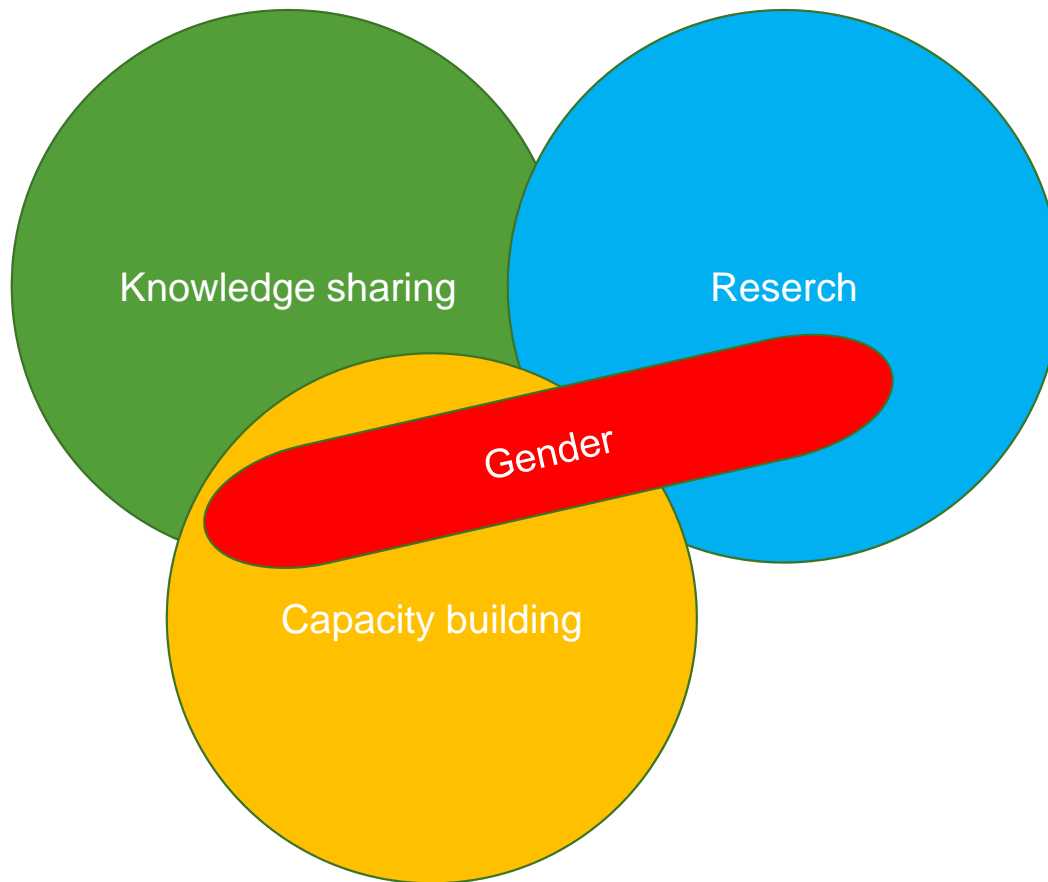

## Calls to Action- Guidance and Standards

- Guidelines on Integration of ID and civil registration systems
- Guidance on Data Protection and Privacy
- Priority Standards across Identity Management Systems
- Statistical Guidance
- Guidance on Health Data and Methodology

## Calls to action
