

**Comments/Suggestions for Statistical Commission 50th Session
New York, March 2019**

3(i) Items for discussion and decision: industrial statistics

File/Page/Par.	Contents	Comments/Suggestions
2019-12-IndustrialStats-E/Page 3/Par. 7	The 2030 Agenda for Sustainable Development has significantly increased the relevance of industrial statistics for global development..... While many international development agencies that were part of the Millennium Development Goals built the required capacity and gained sufficient experience in global data collection and reporting for the purpose of global monitoring, UNIDO has had to build its capacity for global reporting within a relatively brief period.	BPS-Statistics Indonesia agrees on providing data for measuring indicators of Sustainable Development Goals related to inclusive and sustainable industrialization under Goal 9 and Goal 12. BPS-Statistics Indonesia has annually collected R&D spending in manufacturing to support Goal 9.
