

United Nations Statistical Commission

Fifty-second session

1–3 and 5 March 2021

Item 3 (a) of the provisional agenda

Items for discussion and decision: data and indicators for the 2030 Agenda for Sustainable Development

Document E/CN.3/2021/4 – Report of the High-level Group for Partnership, Coordination and Capacity-Building for Statistics for the 2030 Agenda for Sustainable Development

<i>Statement provided by:</i> SWEDEN	
<i>Statement:</i> Sweden takes note of the report from the HLG-PCCB and congratulates the group, the secretariat and the programme committee to the success of the virtual World Data Forum. Sweden approves the establishment of a working group within the Commission tasked with taking the work forward to develop guidance for NSOs on issues relating to data stewardship. We note that work on relating issues are ongoing in several other international groupings and would ask that the working group keep close contact with these to avoid duplication of work and leverage synergies.
