Roadmap:

We welcome the 4 priorities of the Roadmap. Furthermore, we would like to indicate that from our point of view also area 1.1 (increased use of new data sources is a priority. This area of work is of high relevance for the future of official statistics and we hold it to be of high importance. Respective modernisation and innovation work is going on in the European Statistical System and especially in the framework of the European Statistical Programme (ESP) 2021-2027.
