Statement provided by:
The State of Kuwait

Statement:
Unofficial translation,

The State of Kuwait welcomes the System-Wide Road Map for Innovating United Nations Data and Statistics (the priorities and the program of the Committee for Coordination of Statistical Activities) as indicated in the document, and calls for its implementation.

With regard to the Committee of Chief Statisticians of the United Nations system, the State of Kuwait calls for:
- Emphasizing the importance of national data sources and the role of the national statistical offices;
- Strengthened coordination between the United Nations entities regarding statistics and data;
- Simplified data flow / transfer from member states to the United Nations databases;
- An easy-to-use mechanism is needed for NSOs to indicate any discrepancies.
