Statement provided by:
Viet Nam (General Statistics Office of Viet Nam)

Statement:
The General Statistics Office of Viet Nam (GSO) appreciates the report of the Working Group on National Accounts.

GSO would like to inform that Viet Nam has begun to implement SNA 2008 in accordance with the United Nations’s guideline. Accordingly, when conducting a revision of the GDP for the period 2010-2017, GSO has applied SNA 2008 for service activities, including research and development (R&D); activity of computer software, and activity of domestic outsourcing. In 2021, GSO will continue to implement on national accounts in accordance with the international standards, such as: promulgating the Guidebook on the classification by institutional sector, reviewing the questionnaires to ensure meeting the classification by institutional sector for the compilation of accounts by institutional sector in 2021 and the coming years.

Taking this opportunity, GSO would like to express sincere thanks to international and regional organizations such as IMF and ASEAN for always accompanying and supporting us promptly and precisely for compilation of national account statistics.
