

United Nations Statistical Commission

Fifty-second session

1–3 and 5 March 2021

Item 3 (k) of the provisional agenda

Items for discussion and decision: international statistical classifications

Document E/CN.3/2021/15 – Report of the Expert Group on International Statistical Classifications

<i>Statement provided by:</i> ILO	
<i>Statement:</i> The ILO supports the revision of the International Standard Industrial Classification (ISIC) Rev. 4, and reaffirms its willingness to participate in this activity in view of any potential alignment of the revision of ISIC and the International Standard Classification of Occupations ISCO-08. Furthermore, ILO is starting the process of revision of ISCO-08 and it will hold the first meeting of the working group to revise the classification during 2021. A first draft of revised classification is expected to be discussed during 21st International Conference of Labour Statisticians (ICLS) in 2023. As decided by the 20th ICLS last 2018, the revised classification is expected to be final for implementation for the 2030 round of population censuses.
