Statement provided by:
The State of Palestine

Statement:
Unofficial translation:

1- The State of Palestine agrees with the vision and moves forward in order to operate the new United Nations Data Hub, which constitutes a point of a centralized access to the UN's data assets and metadata.

2- The State of Palestine supports the establishment of an interagency mechanism and experts for the full development and implementation of UN Data Hub, in order to facilitate collecting and processing data at the UN, through standardized data forms and data requests, accompanied by detailed instructions on modalities and formats for presenting data.
