

# Does your data site meet DSET requirements?

1

## Is the site findable?

- Optimized for search engines
- Active dissemination strategy
- User-centric feedback loop using Google Analytics and Search Console

2

## Is the site accessible?

- Quick load time and low level of time offline
- Easily navigable
- Follows best practices for Web Content Accessibility Guidelines (WCAG)

3

## Can someone use the data on the site?

- Implements open data standards
- Visualization options
- Provides advanced options for high-capacity users: JSON and APIs
