How do we build partnerships for better data for SDGs?

https://data.unicef.org/

collaborate with NSOs, Ministries, UN, Universities, NGOs

Headquarter Level collaboration

• Methodological work – developing new measures (e.g. stillbirth measurement), global consultation on new methods (e.g. JME country-level estimate for nutrition SDGs), tools, protocols and technical guidelines for data collection

• Collating and verifying SDG data (e.g. IGME inter-agency group collaboration)

• Data management,

• Impactful analyses and communication
How do we build partnerships for better data for SDGs?

https://data.unicef.org/

Regional Level Collaboration:
• Coordination among the UN on capacity development and tools to support countries

Country Level Collaboration:
• Multiple Indicator Cluster Survey (MICS) and new measurement methods
• Capacity in (e.g.) measurement of children in institutions, mortality measurement…
• SDG database management and display
• Data Savvy and use of data
• Developing frontier data hubs with private sector, government and universities
How do we build partnership for better data for SDGs?

- Collaboration knowledge sharing among UN agencies (Task team on reporting), organizations
- With support from global Network of Data Officers and Statisticians, listening to countries can be enhanced
THANK YOU!
