

United Nations Statistical Commission

Fifty-third session

Item 3 (a) of the provisional agenda

**Items for discussion and decision: data and indicators for the
2030 Agenda for Sustainable Development**

**Document E/CN.3/2022/2 – Report of the Inter-Agency and Expert Group on
Sustainable Development Goal Indicators**

Statement provided by:

Central Agency for Public Mobilization and Statistics (CAPMAS)

Arab Republic of Egypt

Statement:

- Egypt is a member of the IAEG-SDGs Expert Group. As member, we have participated in group meetings throughout 2021. We would like to express our appreciation for the work done by all members, co-chairs and the Statistical Committee group.
- We agree and approve the items of this report including the Geospatial Roadmap for the Sustainable Development Goals (as described in the background document “The Geospatial Roadmap for SDGs”).
- We also approve the annual revisions to be made to the global indicators’ framework as set out in Annex I of this document. Furthermore, Egypt encourages the adoption of the proposed new indicator 17.3.1 with the OECD and UNCTAD as co-custodians. Finally, we adopt the Expert Group's proposed work plan for 2022.
