Report of Inter-Agency and Expert Group on SDG Indicators shows hard and continue working of the group for the benefits of the statistics particularly with respect to achievement of 2030 agenda. The methodological review of indicator framework, working on data disaggregation, indicators refinement particularly the introduction of indicator 7.3.1, global data reporting improvements, SDMX, and geospatial information are important highlights of the group working. The PBS supports these efforts and encourages to work with the group for these topics in future. The capacity building approach for future working on SDGs by the member countries is the right step towards achievement of the 2030 agenda which is acknowledged by the PBS for implementation. PBS also support the work programme of the expert group for the year 2022.
