

United Nations Statistical Commission

Fifty-third session

Item 3 (a) of the provisional agenda

Items for discussion and decision: data and indicators for the 2030 Agenda for Sustainable Development

Document E/CN.3/2022/3 – Report of the Secretary-General on work for the review of progress towards the Sustainable Development Goals

<i>Statement provided by:</i> Pakistan Bureau of Statistics, Pakistan	
<i>Statement:</i> The Statistics Division, Department of Economic and Social Affairs, carried out collaborative and coordinated working strategy to support the systematic follow and review for the attainment of 2030 agenda of SDGs. The support and encouragement for capacity building activities, the initiative of Data for Now to utilize the new data sources for reliable and timely data, use of administrative data to generate official statistics, are highly appreciated. The efforts for statistical training for capacity building, launch of global data networking, survey to monitor the impact of COVID-19 on NSOs are the right steps taken for benefits of the international statistics through strengthening them for future statistical activities. The working of Statistics Division is appreciable and supported by the PBS.
