

**United Nations Statistical Commission**

**Fifty-third session**

Item 3 (e) of the provisional agenda

**Items for discussion and decision: population and housing censuses**

**Document E/CN.3/2022/8 Implementation of the 2020 World Population and Housing Census Programme**

*Statement provided by:*

Central Agency for Public Mobilization and Statistics (CAPMAS)

Arab Republic of Egypt

*Statement:*

- Egypt agrees with what was stated in the report and supports the items put forward by the Statistical Committee as contained in the document. CAPMAS requests participation in the working group concerned with implementing the global program for the population and housing census for the year 2020. CAPMAS also in the process of preparing to conduct preparatory work and experiments for the 2027 census.
- CAPMAS conducted the 2017 census, which is the first electronic census in Egypt through the application of a technological system consisting of some elements such as (tablets - secured internet network - digital maps – E-registration of households who wish to register their data electronically). The results were extracted and published within two months of the end of the field work using digital maps to link statistical data and geographical regions, which led to maximizing the benefit of the electronic census compared to paper at all stages of conducting the census.
