Statement:
Portugal welcomes the Report of the "Expert Group on Refugee, Internally Displaced Persons and Statelessness Statistics" on statelessness statistics, and notes that the document is sufficiently clear in terms of defining concepts and the key elements to be included in the recommendations. We consider essential to deepen the analysis of statistical sources and, in particular, the difficulties in making concepts operational. The work carried out is of the utmost relevance and we encourage the Expert Group subgroup on statelessness to move forward to complete the international recommendations.
