

United Nations Statistical Commission

Fifty-third session

Item 3 (g) of the provisional agenda

Items for discussion and decision: human settlements statistics

Document E/CN.3/2022/11 – Report of United Nations Human Settlements

Programme on human settlements statistics

<i>Statement provided by:</i> United Republic of Tanzania	
<i>Statement:</i> The United Republic of Tanzania takes note on behalf of the Africa Group of the achievement of the United Nations Human settlements programme (UN-Habitat) on human settlement statistics. The Group appreciates the various collaborations and partnerships established by UN-Habitat with UN entities and countries, and other stakeholders during the implementation of the institution's work programme. This type of collaboration is encouraged. Africa Group takes note of the progress made on rolling out the global urban and city definition and the capacity development plan following its earlier endorsement in 2020. While endorsing the global urban monitoring framework and its further implementation as part of a harmonized global urban United Nations system-wide strategy, the Africa Group encourages UN-Habitat to support more African countries in applying this approach. The Group approves the planned human settlements statistics activities for the next four years as presented in the report under review.
