

United Nations Statistical Commission

Fifty-third session

Item 3 (i) of the provisional agenda

Items for discussion and decision: health statistics

Document E/CN.3/2022/13 – Report of the World Health Organization on health statistics: strengthening statistical systems to track the health-related Sustainable Development Goals

<i>Statement provided by:</i> Roberto Castillo, Director Ejecutivo del Instituto Nacional de Estadística y Censos del Ecuador	
<i>Statement:</i> Desde el Ecuador, consideramos de alta importancia la exhortación de Suiza, en referencia al "Item3i", ya que coincidimos en la importancia de difundir las cifras que den una clara visión sobre el impacto de la pandemia, de tal manera que se consolide una imagen de transparencia, al tiempo que se provea de información importante para la toma de decisiones y generación de políticas públicas en esta materia. Además se destacan los esfuerzos realizados para la producción de estadísticas durante la pandemia. From Ecuador, we consider highly important the exhortation of Switzerland, in reference to "Item3i", since we agree on the importance of disseminating the data that give a clear vision of the impact of the pandemic, so as to consolidate an image of transparency, while providing important information for decision-making and generating public policies on this area by the States In addition, the efforts made to produce statistics during the pandemic are highlighted.
