

United Nations Statistical Commission

Fifty-third session

Item 3 (i) of the provisional agenda

Items for discussion and decision: health statistics

Document E/CN.3/2022/13 Report of the World Health Organization on health statistics: strengthening statistical systems to track the health-related Sustainable Development Goal

Statement provided by:

Central Agency for Public Mobilization and Statistics (CAPMAS)

Arab Republic of Egypt

Statement:

- Egypt supports the effort made by the organization to improve health statistics and data.
- Egypt stresses the importance of conducting analytical studies for the death causes and focusing on the Covid-19 as a direct main cause of death, as well as the need for studies on epidemiological diseases.
