

United Nations Statistical Commission

Fifty-third session

Item 3 (m) of the provisional agenda

Items for discussion and decision: climate change statistics

Document E/CN.3/2022/17 – Report of the Secretary-General on climate change statistics

<i>Statement provided by:</i> Switzerland	
<i>Statement:</i> Switzerland takes note of the report from the UN Statistical Division (UNSD) on Climate change statistics. It welcomes recent work to develop a global set of climate change statistics and indicators. Switzerland has actively participated in the global consultation carried out in 2021 and encourages UNSD to continue its collaboration with UNECE to ensure that the Global Set remains complementary with the "Conference of European Statisticians Set of Core Climate Change-Related Indicators and Statistics Using SEEA". Switzerland supports the Global Set and its proposed way forward.
