**Statement provided by:**

Mexico-INEGI

**Statement:**

Mexico acknowledges the progress made by the Network and its Sprints (Organizational, Data access, and Beyond the GDP), particularly, drafting the Terms of Reference (ToR) which includes the mandate, governance and working method of the Network. In this regard, INEGI will be pendant of all the progress made by the subjects considered in the future sprints.

Regarding the ToR of the Network, Mexico welcomes this document, which has the aim to facilitate networking, horizontal coordination, and communication among regional and global organizations, as well as promote partnerships in the field of economic statistics. Also, we agree with the main task of the Network of identifying broad horizontal priorities of experimentation and testing for the system of economic statistics through regional and global consultations.
