Document E/CN.3/2022/20 – Report of the Committee of Experts on Business and Trade Statistics

<i>Statement provided by:</i> Spain	
<i>Statement:</i> Spain appreciates the work done by the Committee of Experts on Business and Trade Statistics and the recently established Task team on international trade statistics. We think the availability of unique identifiers of businesses and a global group register is very important in the analysis of the structures of multinational enterprises and also a significant basis for studies on globalization.
