Statement provided by:

NATIONAL STATISTICS AND INFORMATION OFFICE FROM THE REPUBLIC OF CUBA

Statement:

The National Statistics and Information Office (ONEI) from Cuba considers the report presented on the progress in the application of the ICP to be relevant, recognizes the efforts of the participants despite the limitations and challenges caused by Covid-19.

Cuba, although it does not participate in the ICP 2021, has incorporated inclusion in this exercise into its Development Strategy for the 2021-2025 period, which is why it has requested ECLAC to participate as observers in the current program activities as part of the preparation of the task force, which has been very well received.

On the other hand, it welcomes the possibility of having documents that allow a better understanding and use of the results of the ICP.
