

United Nations Statistical Commission

Fifty-third session

Item 3 (s) of the provisional agenda

Items for discussion and decision: agricultural and rural statistics

Document E/CN.3/2022/23 – Report of the Food and Agriculture Organization of the United Nations on agricultural and rural statistics

<i>Statement provided by:</i> Russian Federation	
<i>Statement:</i> The Russian Federation commends FAO on the progress in strengthening the statistical capacity of countries in producing food and agriculture statistics and notes that a necessary condition for high-quality agricultural statistics is the regular conduct of agricultural censuses, allowing to obtain objective information on the state and structure of agriculture, as well as the availability and use of its resource potential.
