

United Nations Statistical Commission

Fifty-third session

Item 3 (t) of the provisional agenda

Items for discussion and decision: informal economy statistics

Document E/CN.3/2022/24 – Report of the International Labour Organization on informal economy statistics

Statement provided by:

Department of Statistics of Jordan

Statement:

The Labor Force Section of the General Statistics Service has implemented the ILO methodology since 2017 as endorsed by ILO in its guidance at the Nineteenth Geneva Conference. The Labor Force Survey includes the extraction of indicators on the informal sector and unregulated employment.
