United Nations Statistical Commission
Fifty-third session
Item 3 (x) of the provisional agenda
Items for discussion and decision: integration of statistical and geospatial information

Document E/CN.3/2022/28 – Report of the Expert Group on the Integration of Statistical and Geospatial Information

Statement provided by:	
Russian Federation	
Statement:	
We take note of the report of the Expert Group on the Integration of Statistical and Geospatial Information, the presentation of the results of the global survey on readiness to implement the Global Statistical Geospatial Framework, and the workplan for the period 2022-2024. We appreciate the progress made by the Expert Group in the integration of statistical and geospatial Information and endorse the development of capacity-assessment tools and leveraging enterprise architecture in the integration of statistical and geospatial information as areas of work for the period 2022-2024. We endorse the Implementation Guide of the Global Statistical Geospatial Framework and note the importance of the recommendations on implementing, operationalizing and strengthening national geocoding, common geographies and interoperability.
