Agenda item | Item 4(g) Price statistics (E/CN.3/2022/36)

Statement:
The NSO Mongolia commends the report and the work of the Intersecretariat Working Group on Price Statistics. We call on the Working Group and international organizations to build the capacity of countries in the use of web scraping to collect price data for housing and CPI estimates, to organize training and workshops and to support them in introducing software and tools. The best practices of countries using scanner data need to be shared and efforts to adopt the practices should be supported.

**Statement:**

NSO Mongolia welcomes the requests by the General Assembly, actions taken and proposed by the Statistical Commission and the Economic and Social Council in the report.

There is an urgent need to increase technical and financial assistance to support the sustainable activities and the capacity building of national statistical offices during the Covid-19 pandemic.

In addition, we support the guidance on open data practices in the production of official statistics, as presented in the report of the Working Group on Open Data, and express our intention to apply it to our activities.

We would like to express our support to ensure the actions, presented in the report, regarding the economic and social statistics used to monitor and evaluate the 2030 Agenda for Sustainable Development.
