SIDE EVENT

PROGRESS ON IMPLEMENTATION OF THE GLOBAL URBAN AND RURAL DEFINITIONS

Tuesday 15 Feb 2022

09:00 AM - 10:30 AM | New York Time

ABOUT

The objective of this side event is to present progress on the implementation of the degree of urbanization harmonized global urban and rural areas definition, based on both ongoing global engagements and country level activities and experiences.

At the end of the side event, partners attending the session will learn more about the process towards endorsement of DEGURBA as the globally harmonized approach to defining urban and rural areas for statistical comparisons for the global agendas monitoring, how the approach works, ongoing and future planned activities related to the implementation of the approach at the global level, and also get a chance to seek clarifications where applicable.
