STAtistical Commission
Seventh session
Agenda item 9

A System of National Accounts

Union of Soviet Socialist Republics: draft resolution

The Statistical Commission

Instructs the Secretariat of the United Nations to revise the report entitled "A System of National Accounts" with a view to including a description of the methods of national income calculation employed in various countries and an analysis of the distribution of national incomes according to the various social groups of the population (entrepreneurs, directors and managers, employees, hired workers, craftsmen, landless peasants, peasants with small holdings, peasants with medium-sized holdings, large-scale farmers and others).

* Document E/CN.3/L.15/Corr.1, issued in Provisional form only, has been incorporated in this document.
