

Informal addendum to Annex “Draft resolution on 2020 World Population and Housing Census Programme” of E/CN.3/2015/6

Additional preambular paragraph:

Recognizing the importance of integrating population and housing censuses with other types of statistical activities, such as the census of agriculture, census of establishments, and with administrative data sets.

Revised operational paragraph (final version):

2. Urges Member States to conduct at least one population and housing census under the 2020 World Population and Housing Census Programme, taking into account international and regional recommendations relating to population and housing censuses and giving particular attention to advance planning, cost efficiency, coverage, the timely dissemination of and easy access to census results for effective utilization by national stakeholders, the United Nations and other appropriate intergovernmental organizations to inform decisions and facilitate the effective implementation of development plans and programmes for sustainable development;

Revised operational paragraph (track changes):

2. Urges Member States to conduct at least one population and housing census under the 2020 World Population and Housing Census Programme, taking into account international and regional recommendations relating to population and housing censuses and giving particular attention to advance planning, cost efficiency, coverage, the timely dissemination of and easy access to census results for effective utilization by national stakeholders, the United Nations and other appropriate intergovernmental organizations ~~in order to~~ inform decisions and facilitate the effective ~~utilization and promotion~~ implementation of development plans ~~and~~ and programmes ~~and studies on population and~~ for sustainable development;
