A Primer for Data Strategy Developers

Daniela Ravindra

Data Strategy Sprint

UN Network of Economic Statisticians

Motivation

- Develop a basic introductory document serving as guide and reference
- Targeted at NSOs and other organizations who want to develop a data strategy
- Relatively high level
- Contains practical examples

Proposed Primer Content

Introduction	Framework of a successful DS	Best practices and recommendations	Future trends and considerations	references
<ul style="list-style-type: none">• Motivation• Drivers of national DS• Consultation, collaboration, and whole-of-government buy-in as keys to success	<ul style="list-style-type: none">• What constitutes a national DS• Objectives of treating data as an asset• Foundational components of DS• Outcomes and impact• Implementation and monitoring• Reporting• Collaborative development	<ul style="list-style-type: none">• Best practices• Recommendations	<ul style="list-style-type: none">• Emerging trends in data management and strategy• Impact of technology on data strategies (AI, blockchain, etc.)• Considerations for sustainability and ethical data use	<ul style="list-style-type: none">• Sources of information• Further reading• Glossary

How you could contribute

- Help review the initial document
- Provide concrete examples from your organization
- Maintain the document evergreen

COLLABORATION

Discussion
