# Main Talking Points

- Skill and training

- About our task team

- About this session

# Skills and Training

## Main points:

- Crucial needs on the country levels on utilizing Big and Normal data.
- Crucial outcomes from the global survey.
- Training Priorities on using Big data.
- Coordination between training providers and partners on different levels.
- What scope of work in training field we may work on?

## Task Team: main objectives

- Develop methods and tools (including coordination and facilitation) for:
  1. a baseline need identification of “Big Data” skills in NSSs; and
  2. an assessment of institutional readiness of NSSs in using Big Data
- Provide guidance on the development of a programme of training that addresses the gaps identified in the skills needs analysis
- Facilitate establishing global network of institutions for training and capacity building on Big Data
- Coordinate training plans inline with international surveys on big data and other outcomes from tasks teams formulated within GWG

## Task Team: main objectives

- Assessment of institutional readiness 2015
- Development of training courses (2015-2016)
- Capacity building and sharing experiences through innovation centres and global network (2016 onwards)

## Task Team: Members

Ms. Margarita F. Guerrero & Mr Arman Bidarbakht Nia, UN/SIAP,  
Chiba, Japan

Mr. Sufyan Al Barghouthi, NBS, Abu Dhabi, UAE

Mr. Ricardo Valenzuela, Mr. Luis Sanchez, Mr. Rene Carabaly, Mr.  
Vitaliano Corredor, and Mr. Juan Carlos Paz, DANE, Bogota, Colombia

Mr. Candido Astrologo Jr, PSA, Manila, Philippines

Ms. Susan Teltscher and Ms Esperanza Magpantay, ITU, Geneva,  
Switzerland

Mr Steven Vale & Ms Tetyana Kolomiyets, UNECE, Geneva,  
Switzerland

Ms. Malarvizhi Veerappan and Ms. Maria Amparo Ballivian, World  
Bank, Washington DC, USA

Mr. Michael Behrman, Mr. Markie Muryawan, and Mr. Ronald Jansen,  
UNSD, New York, USA

## This session

### Why this session?

- How to raise the awareness on needed skills and training related to big data skills?
- How statistical organizations can train their staff on big data skills ?
- Sharing training activities and skills initiatives between countries.
- How good practices can be replicated elsewhere?

United Arab Emirates

# welcome to our session
