2016 Household Survey on Domestic Visitors: Activities, Practices and Updates

Rosalinda M. Garcia Philippine Statistics Authority 19 June 2017 Manila, Philippines

Outline of Presentation

- About the Survey Data Items/Indicators Activities and **Practices** Next Steps

• A nationwide undertaking designed to gather household-based information on domestic and international visitors

• Specifically, the survey aims to collect the following: profile and travel characteristics of domestic and

households

outbound visitors volume of domestic and international visitors of Philippine

travel patterns of households and household members 15 years old and over

extent and economic contribution of domestic and international visitors in the country

•A joint undertaking of PSA and DOT to provide comprehensive information for policy-making and development purposes on domestic tourism

•Fifth in the series since 2005

• First HSDV ...

- with the questions translated to Tagalog
- to have estimates for 5 select NCR cities in addition to national-level estimates

- Used the 2013 Master Sample for Household-Based Surveys
 - A Master Sample is sample from which subsamples can be drawn to serve the needs of several surveys.

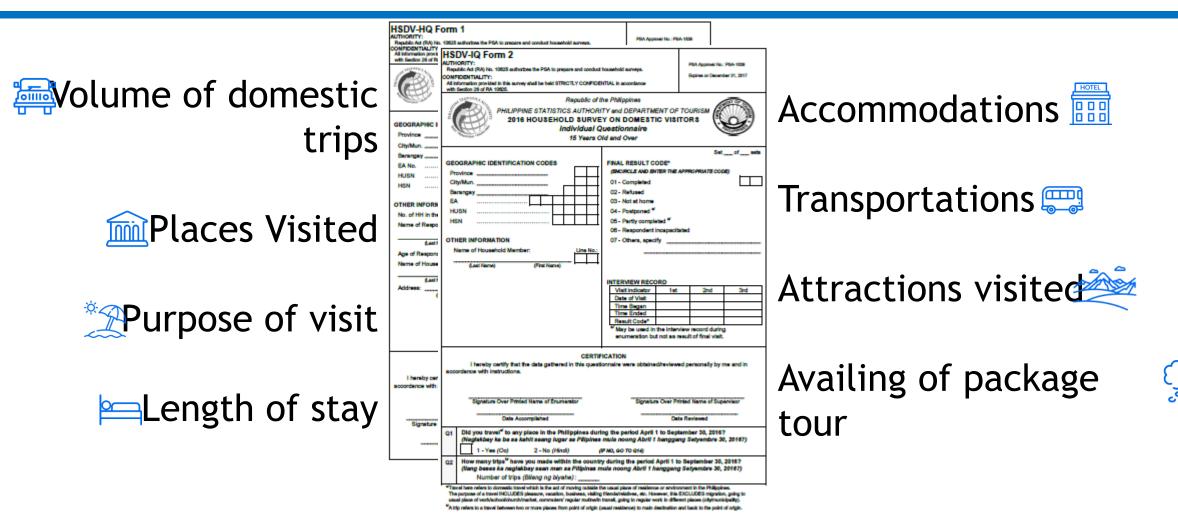

• Sample size: 17,892 sample households nationwide; almost half from the select NCR cities

•Questionnaire construction, pre-testing and finalization

- Iterative process
- Question wording
- Question sequence
- Response choices
- Processing implications
- Other considerations

 Preparation of manuals, data processing system, sample, related administrative preparations

Trainings

- Uniform understanding of concepts and procedures
- National and regional levels
- Classroom discussions, mock interview/field practice

Data collection and field supervision

- Conduct: November
- Provide the second strength
 Provide the second stren
 - Respondents: Household-members
 15 years old and over

Data collection and field supervision

- - Concerns:
 - Non-eligible households/respondents
 - Refusals, not-at-home, incapacitated respondents, etc.
 - Extension of conduct of field operations

•Data processing, tabulation and analysis

- Manual and electronic
- Internal data checks (consistency, range checks, etc.)
- Verification with field offices, as needed

•Data processing, tabulation and analysis

- Questions to answer:
 - "Do the numbers hang together?"
 - "Do the results mirror the actual situation?"

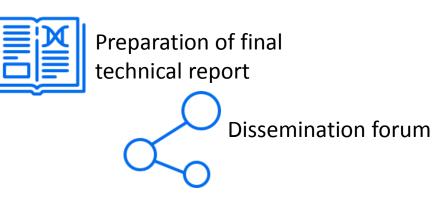

On-going activities

Preparation of press release of preliminary results (core indicators)

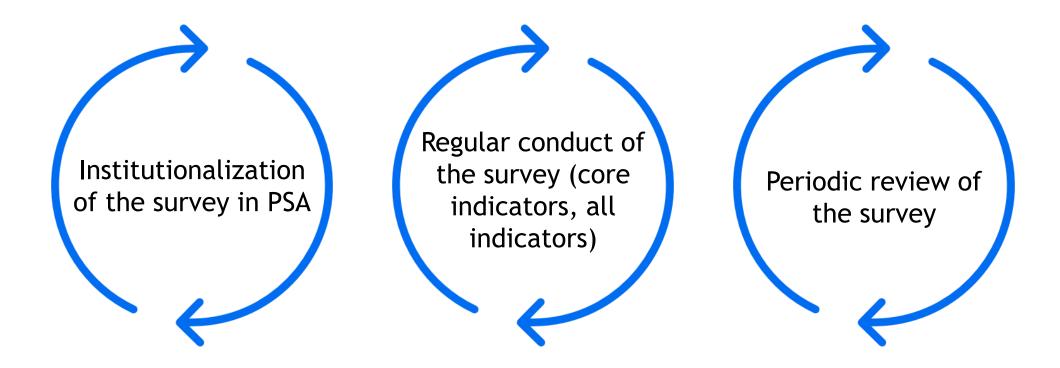

Tabulation and analysis (regular tables)
