"We must ensure data empowers individuals and communities – but also protects them when they are most at risk."

António Guterres, Secretary-General of the United Nations

HIGHLIGHTS

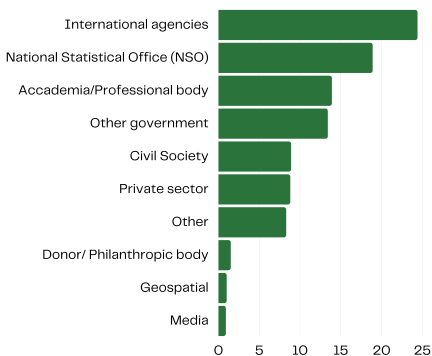

Launch of the **Bern Data Compact for the Decade of Action on the Sustainable Development Goals** to define the global data ecosystem needed to use data effectively for people, planet, prosperity, and peace.

The **Clearinghouse for Financing Development Data**, a new, free online platform providing access to data on **36,000** projects, allows aid recipients, donors and the public at large to understand data financing flows, identify funding gaps, and connect to new communities of experts.

The **Global Data Facility** is the new, World Bank-hosted fund to support data and statistics priorities at the global, regional, national, and community levels. It was designed in collaboration with UN DESA Statistics Division.
