

# WHAT WILL BE THE NEW NORMAL FOR STATISTICAL TRAINING?

ZITA C. VILLA JUAN – ALBACEA, PHD  
PROFESSOR OF STATISTICS,  
INSTITUTE OF STATISTICS, CAS  
UNIVERSITY OF THE PHILIPPINES LOS BANOS

# A NATIONAL STATISTICAL TRAINING UNIT

- A separate unit or part of the National Statistics Office
- Mission /vision is to provide statistical training for the country's statistical system
- Develops, retools and enriches the skill of official statistician in data collection, processing, analysis, archiving and visualization

# BEFORE THE PANDEMIC, A STATISTICAL TRAINING IS CONDUCTED ...

- Face-to-face
- Training venue away from participants' usual place of work
- High cost on travel, food and accommodation expenses

# AT PRESENT, A STATISTICAL TRAINING IS BEING CONDUCTED ...

- Remotely in mostly online mode of delivery
- No need for training venues as we practice 'Training from Home' (TFH)
- No cost for travel, food and accommodation
- Learning losses due to absence of interaction with the trainer as well as with the co-participants

# REQUIREMENTS UNDER THE NEW NORMAL ...

- Easy to use and effective Learning Management System (LMS)
- Well-designed Training Course Packs for blended mode of delivery
- Experienced training facilitators and staff in the conduct of the training using the LMS
- Efficient management system for administrative concerns like coordination, registration, logistic, and finance

The background is a dark blue gradient. In the corners, there are decorative white line-art patterns resembling circuit boards or neural networks, with lines connecting to small circles.

IF THERE IS ANYTHING GOOD OR POSITIVE THAT  
THE PANDEMIC HAS BROUGHT US, IT IS TO THINK  
OF A WAY TO HAVE A BETTER AND MORE  
SIGNIFICANT STATISTICAL TRAINING!!

Thanks for listening!
