

## INFORMATION **MANAGEMENT** STRATEGY FOR SECURITY, QUALITY, AND INTEROPERABILITY

Sergio Carrera

UNWDF webinar on data interoperability

# Information Management as Life-Cycle Management

**Evidence (metadata and knowledge management)** 

Need of a Data Governance Program under an Information Management Strategy for Security, Quality and Interoperability

## **Information Management**

#### **Conceptual framework**

#### **SECURITY**

- Confidentiality
- Integrity
- Availability

#### **Components:**

**Goals:** 

- Information Security
  System
- Operations security
- Human factor

#### QUALITY

- Relevance
- Accessibility
- Timeliness
- Coherence
- Accuracy
- Process standardization
- Information evaluation
- Improvements management

#### **INTEROPERABILITY**

- Conceptual
- Technological
- Organizational

- Modeling
- Technological solutions
- Governance

Sergio Carrera

#### New data ecosystem

## Maturity Model for Enterprise Interoperability\*

Barriers Concerns	Conceptual	Technological	Organizational
Business	Business models, enterprise visions, strategies, objectives, policies	Infrastructure, technology	Work methods, business rules, and organizational structure
Process	Processes models	Tools supporting processes modeling and execution	Responsibilities, process management and rules
Service	Services models	Tools supporting services and applications	Responsibilities, service and application management and rules
Data	Data models, (semantic, syntax)	Data storage and exchange devices	Responsibilities, data management and rules

\*Guédria (2012). A Contribution to Enterprise Interoperability Maturity Assessment.

## Maturity Model for Enterprise Interoperability\*

Level 4: Adaptive (Federated)

Level 3: Organized (Unified)

Level 2: Aligned (Integrated)

Level 1: Defined (Connected)

Level 0: Unprepared (Isolated)

\*Guédria (2012). A Contribution to Enterprise Interoperability Maturity Assessment.

Sergio Carrera

## First steps

### Security

- Information Security Committee
- Rules and Policy

Sergio Carrera

## **Quality** assurance

- Quality Assurance Committee
- Rules and Policy

## GSBPM implementation

- Model adaptation to INEGI and SNIEG
- Mandatory process documentation "as-is"

### Metadata standardization

- National Metadata Network (statistics)
- Metadata Center (geography)
