

Jenna Slotin
Senior Director of Policy, Global Partnership for Sustainable Development Data

Jenna Slotin is Senior Director of Policy for the Global Partnership for Sustainable Development Data. She leads the partnership's efforts to strengthen political support for improved production, access and use of data for the SDGs and its work to replicate and scale innovative solutions by producing and sharing knowledge. Prior to this she was Director, Sustainable Development Policy at the UN Foundation. She has over 12 years of experience working policy issues related to sustainable development and peacebuilding with a particular focus on the 2030 Agenda, development data, and the UN's peacebuilding architecture. Jenna has research, project management and leadership experience from time spent working at the UN, Building Markets – a social enterprise that promotes private sector development in fragile and post-conflict countries – and the International Peace Institute.

Kaie Koskaru-Nelk
Deputy Director General, Statistic Estonia

Koskaru-Nelk has worked in management positions in the public sector for over 20 years. She was previously Deputy Secretary General of Fiscal Policy of the Ministry of Finance and took on the role of Deputy Director General of Statistics Estonia in September 2019. She is responsible for the strategic management of the statistical analysis departments and international cooperation. Besides, she has chaired the supervisory boards of state companies and has been and continues to be a member of state companies' supervisory boards and audit committees. Kaie's primary focus has been to increase the importance of knowledge-based decisions in the central government, through the development and implementation accrual- and activity-based state budget, and smarter data management and analysis in Estonia. She has valuable and diverse experience from the areas of government finance and financial analysis. She received a Master's degree from the University of Tartu in economic theory and foreign trade in 2001.

Juan Daniel OVIEDO
Chief Statistician of Colombia, DANE

Juan Daniel Oviedo was appointed Chief Statistician of Colombia in August 2018. He has international professional experience in economic consulting for energy markets, and national experience in government and teaching. Previously, he was the Director of Institutional Planning and Research (2016-2018) and Director of the PhD School of Economics (2013-2016) at the Universidad del Rosario of Bogotá. In addition, he was the Founding Partner and Chief Director of LEICO Consultores (2011-2018), a leading consulting firm which performed as an expert opinion both for the private and public sector in regulated industries in Colombia and Latin America. He holds a permanent academic position at Universidad del Rosario of Bogotá (Colombia) since 2005. Juan has a PhD in economics from the University of Toulouse 1 (France) and BA in economics from the Universidad del Rosario of Bogotá (Colombia).
