Subject: Re: Letter from Mr. WU Hongbo, USG/DESA on Statistical Principles

Dear Mr Wu

Thank you for your letter received on 5th April 2017 seeking commitment of ESCAP to the "Principles Governing International Statistical Activities".

ESCAP is pleased to reaffirm its commitment to the Principles.

The Principles are the fundamental basis for ESCAP's statistical work and are incorporated in the "SOP Guidelines for management of the ESCAP Statistical Database including the compilation and processing of data and metadata".

I note the revised principles cover issues that have arisen since 2005 including big data and open data and incorporate lessons learned in the compilation of data and statistics for the MDGs. These principles are the fundamental basis for the UN Statistical Quality Assurance Framework that ESCAP is also committed to apply in the continued strengthening and updating of the SOPs.

warm regards

Shamshad Akhtar

Yunxiao Long--05/04/2017 01:58:05---Dear CEB Members, Please find attached letter from Mr. WU Hongbo, USG/DESA for your kind attention.
